## INDIAN WARDS GET NO PROTECTION IN BRITISH COLUMBIA, BUT ARE ROBBED OF RIGHTS ON EVERY HAND

**American Lumber Company is Given a Lease of Immensely  
Valuable Timber Lands on Campbell Creek Reserve  
and Destroys the Fishing**

**A Miserable Pittance of Two Hundred Dollars a Year is All  
That the Tribe Receives Under a Flimsy Agree-  
ment Not Worth the Paper**

Vancouver, Sept. 28.—Until the deal was consummated the British Columbia government denied trying a purchase the Kistliko Indian reserve. After the Indians had left the reserve the government frankly admitted the purchase, as, indeed, it was impossible to keep it a secret.

This was only one of many cases in which the Indians received practically nothing for land which was their heritage. Evidence was obtained yesterday of another instance in British Columbia showing the protection which the Indians, wards of the Dominion government, have received. Ottawa is a long way off and, owing to the trouble between the provincial and Dominion governments, the natives are constantly being robbed.

At the mouth of Campbell Creek, in Surrey municipality, there is an Indian reserve of about 300 acres. The land is immensely valuable. Twenty-five acres of this land has practically been given away to an American lumber company. In return the Indians get the insignificant sum of \$200 a year, \$100 every six months.

It is ridiculous to believe that the company receives the land for that sum, but that is all it pays the Indians. Who gets the rest? The Indians claim that they were told to sign the agreement without a single signature on the other side to make it binding. Some one else has given the company a lease, perhaps for twenty-one years, perhaps for ninety-nine, the Indians do not know.

The Campbell River Lumber Com-

pany has its headquarters at Blaine, Wash., although described in the "agreement" as being of Hazelton, B. C. It is stated in the "agreement" that it is by the wish of the Indians that the land is leased, yet the Indians are complaining that they do not even know what the "agreement" means.

Who gave sanction of this lease? Who was the man who told the Indians to sign? And who is the person who receives the difference between what the lumber company pays for its lease, and what the Indians receive?

The "agreement" speaks for itself. It is published here in full. It might be mentioned that the company holds a copy signed by the Indians.

The land leased in this indefinite fashion by the lumber company is the most valuable in the vicinity, and yet the adjoining land in White Rock townsite is being sold for summer residences at sums between \$500 and \$1,200 for 30-foot lots.

The Indians of the reserve find the agreement unsatisfactory, as they are now stating, for the reasons that there is evidently no limit to the lease, and that they have no papers to show that there is any agreement.

They complain that the lumber company is now blocking up the whole stream so that the fish cannot get up. The guarantee of work for the Indians is of little worth, as the men find that they are offered only \$2.50 a day for a poor job by the lumber company, while they can make \$2.50 for other lumber companies and at the canneries where they are now working.

## SULZER STOCK DEALS TOLD BY BROKERS

**Many Witnesses Being Sought  
for on Both Sides in Im-  
peachment Hearing**

Albany, N. Y., Sept. 28.—Fred L. Colwell, long-missing witness in the impeachment trial of Governor Sulzer, is ill in a sanitarium, but is ready to come to court and testify as a witness for the government. He is being sought by the board of managers for having previously refused to testify. Judge Herlick announced this at the opening of court to-day.

While members of the court of impeachment were arriving in town to-day for the regular half-day Monday session, a dozen detectives were busy serving subpoenas for both prosecution and defence.

A score of legislators and politicians were sought by the board of managers, while fifty persons were being called for the governor.

The testimony to-day of Melville J. Fuller and J. B. Grey, New York brokers, regarding the governor's stock deals, was expected to clear the decks for the introduction of testimony regarding Sulzer's alleged bartering of political influence.

Friends of James C. Garrison, who is held at the Albany county penitentiary for contempt of the assembly, have abandoned hope of obtaining his freedom before October 8, when the assembly will reconvene.

## WOMAN A SUICIDE IN A WESTMINSTER HOTEL

New Westminster, Sept. 28.—Entering a room at the Hotel Dominion yesterday afternoon the police found the body of a woman who on Saturday afternoon registered as Anne Kruger, of Nelson.

The woman lay upon her back on the bed with her mouth burned from contact with carbolic acid, as the stains and a black bottle, partially empty, testified. On the dresser, near the head of the bed, the police also found a hypodermic syringe, which had contained a quantity of morphine. An injection of morphine had evidently been made by the woman prior to taking the carbolic acid.

Beyond the fact of the registration nothing is known of the woman, as efforts to communicate with Nelson authorities had not elicited a reply last night. It was noticed that where there had been an initial on her clothing, which was of excellent material, it had been carefully removed. In one instance only had this been overlooked, the letters "A. N." being found on the waist. Judging from her appearance she was about thirty years old.

## SENT WORD TO CORONER AND THEN ENDED LIFE

**Despondent Man Shoots Himself in a  
Seattle Park; Leaves Family  
in Canada.**

Seattle, Sept. 28.—After sending word to the coroner that he intended to commit suicide, F. M. Lautz, a soap chemist and member of the family owning the Lautz Bros' soap works in Buffalo, N. Y., one of the largest in the United States, shot and killed himself in Woodland park on Saturday afternoon.

Lautz was found on a park bench. He died in the ambulance on the way to the city hospital. He had shot himself in the head.

Lautz, who was 46 years old, and who leaves a wife and two daughters in Fort Erie, Canada, where they conduct a summer hotel, left the employ of the Lautz factory in Buffalo a year ago owing to trouble with the rest of the family, and came to Seattle for the Seattle Soap Company. He was discharged in March by J. W. Bernard, the president and manager. On the back of the letter notifying the coroner of his intention to kill himself was scrawled the following message:

"I felt like killing Bernard when I saw him on the street this afternoon, the first time in a long while."

Lautz had only 6 cents, and his bank book showed he had only \$1 left of his account with the State Bank of Seattle. On his body was a letter from his wife and pictures of her and their two daughters. She complained of not having heard from him for a long time.

## WOMAN PHYSICIAN IS MURDERED IN OFFICE

Los Angeles, Sept. 28.—An alibi which the police consider unshakable was offered to-day by Robert Askew, the negro arrested in connection with the murder on Saturday of Mrs. Rebecca P. Gay, a Christian Science practitioner, in her down-town office.

Askew is still held, but the police are looking for another negro who visited the office of the murdered woman. A list of Mrs. Gay's patients was found to-day and the police said every name on it would be investigated.

**THREE HUNDRED LIVES  
ARE PLACED IN PERIL**  
Poughkeepsie, N. Y., Sept. 28.—Three hundred passengers of the steamer Mohawk, of the Manhattan Company, were transferred from their vessel early to-day after she had gone hard aground on an embankment off Hyde Park, 7 miles north of here.

## AVIATION RECORDS REACH NEW POINTS

**In California and Europe To-  
day Daring Bird-Men Estab-  
lish Further Advances**

San Francisco, Sept. 28.—A. G. Sutro, of this city, grandson of the late Adolph Sutro, broke four aviation records here yesterday.

Flying through fog banks, he carried two passengers four and three-sixteenths miles in 3 minutes and 40 seconds. His greatest speed was seventy-five miles an hour; his average speed for a full lap, fifty-one miles an hour. The weight lifted exclusive of the machine, was 900 pounds. Eight hundred feet was his greatest altitude.

The previous record corresponding to Sutro's was held by T. O. M. Sepwith, who carrying two passengers, made 3 1-10 miles in six minutes and fifty-six seconds, an average speed of thirty-five miles an hour for the full lap, and a maximum of 62.13 miles an hour.

The late Phil Parmelee held the weight-lifting record of 458 pounds. Sutro's cargo included oil, gasoline, additional clothing, instruments and ballast.

The endurance record was tried for, but engine trouble intervened. The figures were taken officially for the Aero Club of America.

Rheims, France, Sept. 28.—France retained the international aeroplane cup, emblematic of the world's championship, by winning to-day from Belgium over the course of 131.28 miles. Emile Vedrines finished in 1:00:51 2-5.

Belgium was represented by only one man, Albert Crombe. He completed the course in one hour, nine minutes, fifty-two seconds.

Maurice Provost, the first of the three French aviators, finished in 5:45 3-4—an average speed of 125 miles an hour.

Eugene Gilbert, the second Frenchman, finished in 1:00:55 2-5, and was placed third.

Only the four starters, representing the two teams, started in the course of the race made a new world's record for sea and twenty kilometres.

## ROYAL QUARRELS IN THE GERMAN HOUSES

**Serious Friction in Kaiser's  
Household Almost Results in  
Split in Imperial Family**

Berlin, Sept. 28.—The more or less detailed rumors of the existence of serious differences between the houses of Hohenzollern and Cumberland, which have been in circulation for some time past, received fresh impetus last night from the report that Princess Victoria Luise, the German Emperor's daughter, who was recently married to Prince Ernest Auguste of Cumberland, will take an extended trip for the benefit of her health, probably to Corfu or the Riviera. She will be accompanied by the Empress.

Prince Ernest Auguste left Saturday for Germany, where he is reported to be hunting for a month. It was explained Princess Victoria Luise was not well enough to take such a long trip, but the trip announced last night is much longer.

On Thursday last the Tageblatt reported that a wrangle over the formalities in connection with the enthronement of Prince Ernest Auguste and Princess Victoria Luise as Duke and Duchess of Brunswick had almost led to a split in the German imperial family and the withdrawal of the prince and princess from Germany.

Princess Olga, third daughter of the Duke of Cumberland, is engaged to wed Prince Moritz of Schaumburg-Lippe, according to announcement from Vienna. Princess Olga is a sister of Prince Ernest. At the time of his wedding it was said that the Countess Anne of Hesse, who really arranged it, had brought about what was thought to be the end of the friction between the Guelphs and Hohenzollerns, and that she had another scheme by which she hoped to cement the friendship of the two houses.

## NEW SQUADRON IN ATLANTIC

Devonport, Eng., Sept. 28.—The British cruisers Suffolk, Berwick and Lancaster, which are later to be joined by the Monmouth, sailed to-day for Bermuda. From that base the newly-constituted West Atlantic squadron, commanded by Rear-Admiral Sir Christopher Cradock, will protect British interests in the Panama Canal zone. This squadron subsequently will represent Great Britain at the opening of the canal.

## ASK OFFICIAL SANCTION

Ottawa, Sept. 28.—The Kettle Valley Railway Company and the C. P. R. are applying to the board of railway commissioners for the sanction of a traffic agreement recently entered into by the two companies.

## REDMOND MAKES CARSON AN OFFER

**Willing to Meet Ulster If Prin-  
ciple of an Irish Parliament  
is Conceded**

## UNIONIST LEADER BALKS AT SUCH A CONCESSION

**Plan of Provisional Govern-  
ment Meant for Effect on  
English Public**

## SEA SERPENT PALES INTO INSIGNIFICANCE

Dublin, Sept. 28.—John E. Redmond, Irish Nationalist leader, has made an offer to Sir Edward Carson to discuss with him every provision of the Home Rule bill and to meet the needs and desires of Ulster if the Ulster leader would concede the principle of a local parliament for Ireland.

Answering this offer, Sir Edward Carson has telegraphed to the Daily Express, announcing his willingness to discuss any measure for the improvement of the existing government of Ireland, provided she retains her position under the imperial parliament.

"Sir Edward Carson and his friends have supplied the newspapers with amusing silly-season copy which has made the sea serpent pale into insignificance," said Mr. Redmond, replying to an address of welcome at Cahirciveen, County Kerry, to-day.

The Ulster provisional government, he declared, would require many millions of capital, would cut itself off from the imperial government and the Irish government, from old-age pensions and the benefits of the insurance act, from the imperial act on education, agriculture and public works.

From the operations of the housing and land purchase acts, and from the post office. No merchant could draw a legal cheque, give a legal receipt or recover a debt outside of Ulster.

"The whole thing is a gigantic and preposterous absurdity," he exclaimed. "It is meant merely for English consumption. But the English people are neither fools nor cowards. They won't be humbugged by talk about provisional governments, nor intimidated by the wooden muskets of Ulster."

In a second speech Mr. Redmond declared that the Home Rulers had been silent, law-abiding and orderly, while their opponents had been shrieking and boasting of illegality and inciting to riot and bloodshed.

Knowing that the destruction of the Home Rule Bill would mean the breakdown of the government's other proposed reforms, the Home Rulers had been silent, law-abiding and orderly, while their opponents had been shrieking and boasting of illegality and inciting to riot and bloodshed.

## TURKEY AND BULGARIA SIGN TREATY OF PEACE

**Former Enemies Will Now Act in Concert Against Greece to  
Force Her Acceptance of the Terms Demanded by the  
Porte; Will Be Driven From Salonica and Epirus If  
She Does Not Yield**

Constantinople, Sept. 28.—The treaty of peace between Turkey and Bulgaria was signed by the plenipotentiaries here to-day.

The menacing language of the newspapers representing the Turkish military element, which virtually occupies the government saddle at the present moment, confirms the uncompromising attitude adopted by Turkey in her demand on Greece.

One paper declares that if Greece fails to yield, "she is doomed to be driven from Salonica and Epirus within the limits of her old frontier."

Another says: "Greece is bound to yield on the question of the islands in the Aegean Sea before the united Bulgarian and Turkish armies."

## WAY OF PEACEMAKER MAY LEAD TO DEATH

Louisville, Ky., Sept. 28.—A white man and two negroes were wounded, probably fatally, here yesterday in a fight which followed efforts of several white men to stop a general melee among negroes.

About twenty negroes were engaged in a fight with bricks, when five white men on an ice wagon drove through the alley where the blacks were fighting. According to the white men the negroes resented their efforts to stop the brick-throwing and assaulted them.

Martin Huesman, white, is in the hospital with razor and knife wounds, which are expected to prove fatal. Two negroes were shot and are expected to die.

## THIRD CANDIDATE FOR PRESIDENCY

**Colleague of Huerta's is Put  
in Nomination; Porfirio  
Diaz' Plans**

Mexico City, Sept. 28.—Colonel David de la Fuente, former minister of communications and public works in General Huerta's cabinet, has been put forward as presidential candidate by the so-called Liberal-Republican party. This makes the third nomination for presidential honors.

Dr. Gregorio Mendizabal, a former senator, was nominated for the vice-presidency with Colonel de la Fuente. Both have accepted. The sphere of influence of the Liberal-Republicans is confined largely to the capital. The party has no definite organization, but consists chiefly of adherents of a group of congressmen, who constitute a wing of opposition in the chamber of deputies to the Catholic party.

Lively interest to see a connection between the recall of General Felix Diaz, the recent visit to the capital of General Trevino and the invitation of the aged ex-president to return.

Paris, Sept. 28.—General Felix Diaz sent a cable message to Senor Gamboa to-day, expressing his felicitations and compliments upon the nomination of Senor Gamboa to the presidency of Mexico by the Catholic party.

General Felix Diaz will sail on the steamer Corcovado from Havre to Mexico, Tuesday. He has not been recalled, according to his statement, but having finished his work in Europe he returns at a time which suits his convenience.

Blairist, France, Sept. 28.—General Porfirio Diaz, the ex-president of Mexico, declared yesterday that he had received no communication from the Mexican war department, recalling him for service. He expressed the opinion that any report regarding his recall must have arisen through confusing him with General Felix Diaz. The ex-president said he would remain here until the middle of October.

Piedras Negras, Mex., Sept. 28.—Heavy loss of life is reported in the two days' fighting which began Saturday below Aura, when Constitutionalists massed for desperate attempts to check the long-expected federal invasion of Coahuila.

The federals under General Maas moved to-day, gradually forcing the Constitutionalists back under heavy artillery fire, and it is reported that they are in full retreat. At Barroteran, the Constitutionalists endeavored to make a stand but General Pablo Gonzales decided it useless to risk his men until reinforced.

## DIED IN REVOLVER DUEL

Winchester, Ky., Sept. 28.—Ellis Brandenberg was killed and his wife and Ben White were fatally wounded yesterday in a revolver duel in the public road near here which resulted from a quarrel over the efforts of White and his cousin, Charles Hollin, to drive past the buggy in which Mr. and Mrs. Brandenberg were riding. Hollin was arrested.

## CRAZED BY DRUGS, COLORED LADS KILL TEN AND WOUND MANY OTHERS

**Mississippi Town is Terrorized by Brothers Who Fire at  
Everyone in Sight; Militia Have to Be Summoned; Mur-  
derers Are Lynched by the Infuriated Citizens;  
Race War Narrowly Averted**

Harrison, Miss., Sept. 28.—Two drug-crazed mulatto boys, brothers, began a reign of murder here early yesterday that ended only after three white men, six negroes and a negro had been killed, several persons wounded and the two boys lynched. A serious clash between the races was prevented by the arrival on a special train of a company of National Guardsmen from Natchez.

The trouble started about 2 o'clock yesterday morning, continued intermittently until 10 o'clock, when Walter Jones, the oldest of the two boys, who started the firing, was lynched just after the soldiers arrived. His brother, Will Jones, had been shot and lynched by citizens earlier in the day. No more trouble is feared.

The shooting was started by Walter Jones, aged 20, in the negro quarter, where Johanna Alken, a negro, and Theod Grayson, a negro, was shot and killed. Walter then went home, aroused his 15-year-old brother, and together they proceeded through the main street of the little town, firing at everyone in sight.

The two boys went to the home of former Constable Frank Keenly, and Walter killed him when he responded to their call to come out. Keenly's son, William, saw his father fall and reached for a gun, but before he could fire he received a bullet in one hand.

The Y. & M. V. depot is near the Keenly home and the two negroes walked in that direction. A train had arrived from Natchez just a few moments before, and Conductor E. B. Appleby was standing at the station talking to Flagman W. C. Bond. Without warning the two negroes fired on them, and both fell. Then the negroes directed their fire at Claude Freeman who was waiting for a train. He was instantly killed.

The negroes then fired into the train, terrorizing the passengers. A sleeping car from Natchez is left every night at Harrison until the through train from Memphis to New Orleans arrives. After the train from Natchez had departed, this train was a target for the fire of the negroes. While many windows were smashed, none of the occupants of the car were hurt.

The negroes then made their way to a cotton seed house near by. It be-

lieved they then realized that a posse soon would be formed and determined to make a last stand at the seed house. Frightened citizens by this time had telephoned for Sheriff Hammett at Fayette. Hammett arrived on horseback about 6 o'clock. A small crowd of men were firing into the seed house, but no one had ventured to charge the position.

Taking a few men with him, Sheriff Hammett, heavily armed, started toward the seed house, whereupon Walter Jones went to the tall grass nearby and shot Hammett as he approached, killing him instantly.

A shot from the seed house brought down a farmer named Gillis. By this time the countryside had been aroused and the farmers came pouring in from every direction. A general fusillade was directed at the seed house. A call was sent to Governor Brewer for troops.

Finding his hiding place too precarious, Will Jones started to run toward a coal chute nearby, but had gone only a few steps when a bullet ended his life. A rope was placed around the body, it was strung up to a telegraph pole near the station, and became a target for everyone not shooting at the seed house.

Soon after Will Jones was killed, Walter Jones picked Tom Weeks, a negro, off the coal chute with deadly aim.

A special train bearing the Naches Guardsmen arrived soon afterward. While the soldiers were detaining the crowd rushed the seed house. Not a shot greeted them, and when the leaders entered they found Walter Jones completely unharmed, but uninjured.

They placed a rope around his neck and rushed him to the coal chute. As the negro was driven up the rope broke and he fell heavily to the ground. A larger rope was placed around his neck and again he was pulled up. A large crowd looked on as the body writhed until life was extinct.

The crowd then went to the home of the two negroes, where they found two negroes whom they were about to lynch, when the officers ordered them to desist.

The negro population appears to be as much incensed at the brothers as the whites.

## ANXIETY CAUSED BY CONDITION OF POPE

**Health of His Holiness is Not at All  
Satisfactory and Rest  
is Ordered.**

Rome, Sept. 28.—The condition of Pope Pius X. is giving rise to some anxiety. Although not suffering from any specific malady, the state of his health is unsatisfactory.

It is believed, however, that rest and care will restore him. Audiences have not been suspended officially, but attending physicians have agreed to discourage receptions of any kind until the pontiff has recovered his strength.

In view of his present weakness, it is not considered probable that the pope will preside, as originally arranged, at the great function at the closing of the Constantinian jubilee on December 8, the feast of the immaculate Conception.

## GERMAN BANK RATE.

Berlin, Sept. 28.—The possibility of the reduction of the German bank rate was held out to-day by Otto von Glaznapp, vice-president of the German Imperial Bank, at the monthly meeting of the institution. He said the reduction would depend on the extent of the demands on the Imperial Bank at the coming settlement. These, however, he declared, were already large.

## GET ON THE LIST

All who desire to be put on the voters' lists for the province, which lists of course are used in the case of a federal election, are reminded that the first Monday in October is the last day upon which they can make application to be placed on the lists at the November revision.

All who are not now on the list and who are entitled to be added at the coming revision should make application at once to the secretary of the Liberal Association, 619—Cormorant street, to the registrar of voters, Harvey Combe, at the law courts, or to any of the commissioners who are empowered to receive applications.

The qualification requisite is being a British subject of full age, with residence in the province for six months and in the district for one month before the claim to be inscribed on the list is made.

## DITCHED TRAIN IN VAIN EFFORT TO SAVE A LIFE

**Northern Pacific Engineer Put on  
Emergency Brakes When He  
Saw Man on Tracks.**

Ellensburg, Wash., Sept. 28.—In an effort to save an unknown man late Saturday evening, Engineer Zueger of an eastbound Northern Pacific freight train put on the emergency brakes and sent twelve cars into the ditch. Zueger's train was traveling about thirty miles an hour when the headlight showed a man walking on the track. Zueger blew the whistle, but the pedestrian, an elderly man, apparently never heard, as he did not turn his head.

Finding the man made no effort to leave the track, Zueger threw on the emergency brakes and the twelve leading cars buckled up and were derailed, eight empty and four cars of logs. The logs were thrown nearly a hundred yards from the right-of-way and the wreckers had the hardest job in months to clear the track.

No members of the crew were injured. The pedestrian was killed. His body is at the coroner's office here and has not been identified.

## SCRAMBLE TO LEND TO CHINA ENDS AGREEMENT

**Great Britain Announces the Dissolu-  
tion of Loan Contract; Not Ob-  
served by Other Powers.**

London, Sept. 28.—The British government announced to-day the dissolution of the Chinese loan agreement from which the United States withdrew its support some time ago. The agreement had not worked to the satisfaction of any of the five powers concerned, Great Britain, Germany, France, Russia and Japan.

The British government took the initiative in the dissolution, it is explained, because of the failure of other powers to observe its spirit, having made of the agreement simply an instrument against the interests of British financiers.

The five powers will still act together in making loans to the Chinese government for general administrative purposes, but each of the powers has been left free to support any of its citizens in floating loans for railroad and other industrial projects and for provincial purposes.

The declared object of the original agreement, it is pointed out here, was to prevent an international scramble to lend China money, but such a scramble is in progress.

## SHRINERS TO HOLD SESSION IN VOLCANO

Seattle Temple Invites Victoria and Vancouver Members to Attend Ceremony

Vancouver, Sept. 28.—A prominent member of the local Masonic order, who recently returned from Seattle, states that the Nile temple, Seattle, of the Mystic Shrine, has received a dispensation to hold a ceremonial session at Manila next January. The delegates will leave on the Great Northern liner Minnesota on her December trip, and will return to Seattle on the same vessel. The voyage there and back, and the time spent at Manila, will take 72 days, and will be the longest pilgrimage ever undertaken by the Shriners.

It is planned to hold one of the ceremonial sessions in the crater of a volcano, a feature probably unrivaled in the history of any order. Great interest is said to be taken already in the proposed pilgrimage.

The Seattle members of the order are notifying their fellow Shriners of the unique trip which has been planned and it is anticipated that Masons from all parts of the American continent will attend. There are a large number of Shriners resident in Manila, and the fact that the annual carnival will be in progress at the time the ceremonial sessions are to be held, will doubtless add greatly to the gaiety.

Invitations are being sent to the Victoria and Vancouver branches of the order.

"Nag" Roof Compositions are fireproof and add years to the life of an old roof. See Newton & Greer Co., 1326 Wharf Street.

## INDIANS SURRENDER SQUAMISH RESERVE

Grand Trunk Pacific Terminals at Newport Will Be Placed on the Ground

Vancouver, Sept. 28.—The legal surrender of the Squamish reserve at Newport to the Pacific Great Eastern Railway Company, by the Indians, took place on Saturday in the old mission church in North Vancouver. The ceremony was carried out under the direction of W. E. Ditchburn, inspector of Indian agencies, who came over from Victoria on receipt of directions from the Indian department at Ottawa. He was assisted by Peter Burn, of New Westminster, local Indian agent.

The Indians from the Squamish reserve were present to the number of nearly sixty. They were headed by Chief Joseph, who had jurisdiction over five of the reserves in the general Indian tract transferred, and Chief Edward Williams, who has control over one reserve. Chief Harry participated in both surrenders.

There was a slight hitch when some of the Indians held out for the full purchase price being paid to them in cash, but it was pointed out that under the Indian Act only 50 per cent can be paid to the Indians direct. Thanks to the presence of Mr. Ditchburn, their opposition was soon overcome.

There are, including the mountain, 1,100 acres affected by the transfer. The purchase price was \$150,000, for the land, and \$5,000 for the timber. The area is required for terminals and townsite purposes. There is considerable waterfrontage on the property, and Darcy Tate said that the company proposes to dredge out the harbor and deposit the material on the lower stretches of the reserve, raising it three or four feet. He believes that Newport can be made an important harbor and shipping point.

## WOULD BE POLICEMAN BUT HIS RUSE FAILED

Artificial Addition to His Height Was Detected by Doctor.

Chicago, Sept. 28.—In an effort to become a member of the fire department, an applicant caused a considerable amount of paraffine to be injected into his scalp.

Dr. E. T. Olsen, physical examiner for the civil service commission, noticed a peculiar lump on the top of the head of one man who appeared before him. He found the protuberance soft and pulpy, and decided it was caused by a sub-cutaneous hypodermic injection.

Then Dr. Olsen recognized the applicant as a man whom he examined two weeks ago, and rejected because he was only 5 feet, 7 1/4 inches tall, a quarter of an inch under height. The paraffine made the man a half inch taller, but upon discovery of the deception he again was declared ineligible.

## WOMAN MURDERED IN LOS ANGELES OFFICE

Los Angeles, Cal., Sept. 27.—With a piece of gaspipe a foot and a half long, an unknown person killed Mrs. Rebecca P. Gay, a religious health practitioner, in her office some time yesterday evening, and after a futile attempt to throw the body from the fifth story of the office building, left the dead woman covered with copies of a religious newspaper. The body was found early to-day in Mrs. Gay's consulting room, lying under the window.

There was nothing to indicate the motive for the murder. It was not the outcome of a quarrel. Mrs. Gay's purse and whatever valuables she kept in her office were undisturbed.

## ITALIAN FRANCHISE BROADENS.

Rome, Sept. 29.—The election of Italy's twenty-fourth parliament, which takes place on October 26, will be held under conditions hitherto unknown in the peninsula, for, within certain limitations, the vote has been extended to illiterates, thus bringing the electorate from 3,000,000 up to 8,000,000. It remains, however, to be seen what percentage the voters will be of the electors; in 1909, as the last election, it was 62, which was the highest on record. The extension of suffrage concerns illiterates who have performed military service or have reached the age of thirty years.

## APPEALS TO CABINET.

Ottawa, Sept. 29.—An important appeal to the Canadian Privy Council has been made from a decision of the Railway Board by the Grand Trunk Pacific, which involves an immense amount of British Columbia and Eastern capital. The appeal is from a decision of the commissioner of May 14, 1913, directing the railway to erect a station at a point 3,000 feet east of the eastern boundary of the townsite laid out under the name of Fort George by the Natural Resources Security Company, Limited, of Vancouver. The appeal will be heard by the Cabinet shortly.

## FOOD FOR STRIKERS.

Dublin, Sept. 29.—The ship loaded with provisions, sent by the Trades Union Congress to the aid of the Dublin transportation workers, reached the Liffey Saturday afternoon. Its arrival was greeted with cheers by thousands of persons who lined the quay. The food on board is valued at \$25,000.

"Shell" Gasoline Purity means more power. Dispensed by the Red Seal, 727 Broughton Street.

## MINE OPERATORS A TARGET FOR PROTEST

Speakers Denounce Their Methods; Ask Workers to Leave Militia

Montreal, Sept. 29.—At a largely-attended meeting on Saturday afternoon, the garment workers on strike decided to continue their fight and to show sympathy toward the striking miners of British Columbia, by adopting a resolution protesting against the action of the government of that province and asking for the immediate release of the miners now in jail.

Several speeches against capital and capitalists were delivered by delegates to the labor congress at its closing session on Saturday.

Will Thorne, M. P., the British labor leader, called the action of the government of British Columbia in trying to crush the organized workers "a shame to humanity," and advocated the establishment of an international alliance of all the workers of the world to fight the capitalists.

J. W. Wilkinson, general secretary of the Trades and Labor Council of Vancouver and delegate to the labor congress, spoke at length of the strike in British Columbia. He attacked the ex-Lieut. Governor Dunsinuir as the proprietor of a great number of mines, claiming that he imported Japanese and Chinese laborers to take the places of the white men. The Orientals, he claimed, worked for half the salary asked by the Canadian miners.

James Simpson, delegate from the Trades and Labor Council of Toronto, spoke of progress in the industry, which, according to statistics, was profitable only to the capitalists, who refused to have their employees share in the profits they are making.

A resolution was unanimously adopted, introduced by Delegate Brooks, of the Machinist Union, Vancouver, Division 48, as follows:

"Whereas, the government has once more shown its power with regard to the militia being used against trade unionists in the time of strike, and

"Whereas, the militia has been called out again on Vancouver Island against the United Mine Workers of America to block the strike and harass the said strikers,

Therefore, be it resolved, that trade unionists be asked to resign from all militia forces."

## SOCIALIST CONTEMPT WILL SWAMP COURTS

Persistence in Street Speaking in Seattle in Spite of Injunction Promises Trouble.

Seattle, Sept. 29.—Further announcements were made yesterday at meetings of Socialists that injunctions forbidding street speaking issued by Judge Humphreys would be set at naught in a campaign of open-air addresses, that the Socialists declare they mean to inaugurate to-day.

That the conflict of the Socialists and those who oppose them will not be confined to the Superior court, now clogged with fifty contempt cases, and with the near prospect of as many more, was forecasted last night when the police took a hand in the controversy by arresting two Socialist street speakers.

Following the announcement that the fifty now under arrest for contempt would demand jury trials when their cases are called before Judge Humphreys, it was stated to-day that the defendants purpose also asking for separate trials.

This, it is stated, would swamp all departments of the superior court for weeks.

## VAUDEVILLE ACTOR SHOOT HIS PARTNER

Quebec, Sept. 29.—While performing a vaudeville act of cowboy life an actor named Fox accidentally fired a bullet through the body of his partner, Miss Daly, who is now dying at the Jeffery Hale hospital.

Fox is an experienced sharpshooter, and so was Miss Daly. The accident occurred during the first part of the act on Saturday before any shooting had been done. Fox was acting his part and playing with his loaded gun. Suddenly the gun struck an obstacle and the shot was fired through the girl's body.

She screamed with agony and made an effort to run off the stage, but fell into her partner's arms, while the audience did not fully realize what had happened.

## REMARKABLE SPEED IN AIR.

Rheims, France, Sept. 29.—The remarkable speed of 118.6 miles an hour, beating the official world's record of 111 1/2 miles an hour, was made here by both Emile Vedrines and Maurice Provost, two French aviators. They were flying in the elimination trials to select a French team for the International Aeroplane Cup race. Vedrines, Provost and Eugene Gilbert were chosen as the French representatives.

## BOW RIVER IRRIGATION.

Montreal, Sept. 29.—The new six-million-dollar dam at Bassano, Alta., will be opened on October 1. This is the official announcement coming from the C.P.R. to-day in regard to the project of checking the Bow river in order to irrigate the land of Western Canada, a project which has attracted world-wide attention in the past few years.

## QUADRUPEL BOYS.

Centralla, Ill., Sept. 28.—Quadruplets, all boys, were born to Mr. and Mrs. Pearl Yates, who live near here. Physicians believe the four boys will live.

**CHURCH SERVICES ON  
ULSTER ANNIVERSARY**

Covenant Signing is Com-  
memorated in Northeast  
Ireland

London, Sept. 28.—While it is evident that the English leaders of both parties are in a conciliatory mood toward the Home Rule question, it also is evident that Irish leaders are not. Services were held to-day in many of the churches throughout Ulster, representing the Church of Ireland, and the Presbyterian, Methodist, Congregational, Baptist and Moravian bodies, in commemoration of the anniversary of Ulster Day, when the covenant to resist Home Rule was signed. Sir Edward Carson and Frederick E. Smith attended the union service in Ulster hall, Belfast.

Three thousand Protestants paraded and held services in Liverpool.

The impression in London to-day is that the conference which Premier Asquith is holding at Brodick Bay, Scotland, with David Lloyd George, Chancellor of the Exchequer, Winston Churchill, First Lord of the Admiralty, and Walter Runciman, President of the Board of Agriculture, concerns the chancellor's proposed land campaign, since the Minister for Agriculture is participating, while the Chief Secretary for Ireland, Augustine Birrell, is absent.

The Cabinet's hands are really tied in the matter of a compromise, as the Nationalists, under John E. Redmond, have voted for all the important Cabinet measures on the agreement that they be repaid by the passage of the Home Rule bill. Therefore it is doubtful whether any conference can find a basis for agreement.

After the review of Sir Edward Carson's army yesterday, a party of Nationalists pulled a small Union Jack from an automobile, and one of the occupants shot a boy in the leg.

**AUSTRIAN EXPLORERS  
SEEK THE SOUTH POLE**

Expedition Being Fitted Out to Con-  
tinue Work of Amundsen  
and Scott.

Portland, Maine, Sept. 28.—An Austrian Antarctic expedition for work from Weddell Sea south, on the Antarctic is being prepared by a committee headed by Professor Eugene Oberhummer, of Vienna, president of the Imperial Austrian Geographical Society. This information was received by Rear-Admiral Peary just before his departure to-day for Washington.

Dr. F. Koenig, who was a member of a recent German expedition to the Antarctic and has had experience in Greenland, is to be the leader. The Deutschland, used by Fitchner's German expedition, has been acquired, and is now in Trieste.

Admiral Peary said that in his opinion Professor Oberhummer's ability and forceful personality at the head of the committee and the use of dogs by the expedition are factors that will work strongly for success.

**BANKS TREAT ULSTER  
LIKE LATIN REPUBLIC**

This Would Be Result of the Estab-  
lishment of Provisional Govern-  
ment, Says Minister.

Edinburgh, Sept. 28.—Right Hon. Alexander Ure, Lord Advocate of Scotland, addressing his constituents yesterday, referred to the Ulster question. He said the proposed provisional government would be treated by the banks in the same way they would treat a South American republic, and that it would collapse of its own weight within a few weeks.

Regarding the suggested conference of the political parties, he said that provided the principle of Home Rule was accepted by their political opponents, the government would be ready to enter the conference and ready to negotiate upon the question of greater representation for Ulster in the Irish parliament. They would also listen favorably to proposals giving Ulster absolute control of its educational and religious affairs.

They could have it put into words so as to remove all doubt and timidity on the part of Ulster people. He rejoiced to observe indications which he hoped would be stronger next week, in the direction of a conference for a friendly compromise.

**MORGAN ESTATE PAYS  
\$2,500,000 IN TAX FEE**

Albany, N. Y., Sept. 27.—State Comptroller Schmeel received to-day a cheque for \$2,500,000 in payment of the inheritance tax on a part of the estate of the late J. P. Morgan. The payment indicates a valuation of approximately \$55,000,000. This, however, does not cover the entire estate, but only that part over which an agreement had been reached by the representatives of the comptroller and the Morgan executors.

**CHINESE SORRY FOR  
INSULT TO JAPAN**

Apologies Made to Consul at  
Nanking Clear the Air for  
the Present

Nanking, Sept. 28.—General Chang Hsun, the commander of the Chinese troops at Nanking, accompanied by a bodyguard of 50 cavalry, went to the Japanese consulate this morning and apologized in accordance with the Japanese demands in connection with the killing of several Japanese and an insult offered to the Japanese flag.

The consul expressed his satisfaction at the action of the Chinese commander.

At 3 o'clock in the afternoon 500 of General Chang Hsun's troops, with the republican flag at their head, marched to the Japanese consulate and presented arms, while the commander saluted the consul. The Japanese troops, meantime, stood attention.

Peking, Sept. 28.—The apology of General Chang Hsun to the Japanese consulate at Nanking has cleared the air, according to the Japanese officials here, and removed the danger of complications for the present.

The Japanese embassy emphatically denied to-day that an ultimatum had been sent by the Japanese government to China.

The legation stated that the Chinese authorities at Hankow and Shantung had complied fully with the Japanese demands.

A Shanghai dispatch of September 27 announced that the Japanese minister had presented China with an ultimatum, allowing China three days to comply with Japan's demands in connection with the recent attacks on Japanese at Nanking.

**NEW TRUST COMPANY.**

Vancouver, Sept. 29.—The Imperial Canadian Trust Company, which was established in Winnipeg about two years ago by the group of business men associated with the Great West Permanent and the Canadian National Fire Insurance Company has just opened its Vancouver office at the corner of Seymour & Pender streets. The company was established to transact a general trust business, and a real estate department under the management of Joseph Morris, has been opened. E. H. Henderson is manager of the local branch, and the company's directors includes Hon. D. C. Cameron, Lieutenant-Governor of Manitoba; Sir Gilbert Parker, M. P.; Hon. A. C. Rutherford and Jonathan Rogers.

### TOO ONE-SIDED.

Under the heading "Our Canadian  
Commerce," the New York World re-  
cently said:

"Canada's total commerce for the  
year was barely short of a billion dol-  
lars—\$997,555,201, to be exact. This  
was an increase of almost two hun-  
dred millions in a single year. It was  
almost \$140 per head of population. No  
other nation has such a volume of  
commerce in proportion, save only  
Holland.

"Of this billion-dollar commerce of  
Canada's, more than half is with the  
United States—\$547,258,264. Not counting  
coin and bullion, we sold Canada \$409,-  
000,000 worth of goods—an increase in a  
single year of \$90,000,000, or 25 per cent.  
From Canada we bought \$135,000,000—  
an increase of \$20,000,000, or nearly 22  
per cent. The balance of our exports to  
Canada over imports there reached the  
chormous total of \$271,000,000.

This is too one-sided a proposition al-  
together, but what are we going to do  
about it? Canada dare not raise her  
tariff any higher, because she is now  
the highest priced country in the world  
to live in. The new American tariff  
will unquestionably help us to cut down  
that tremendous balance against us,  
but it will not altogether solve the  
problem. Of course, for many years we  
will always buy from the United States  
more than we sell to her, but we should  
take every possible means that will  
help us to send more of our products  
southward. The extension of the Brit-  
ish preference, too, would enable us to  
buy from the United Kingdom much of  
what comes from the United States,  
but the manufacturers, who two years  
ago were so devoted to British connec-  
tion, not only are opposed to any in-  
crease in the preference, which now  
accounts for most of our importations  
from the Old Country, but are actually  
opposed to it as it stands.

Another strange circumstance is ap-  
parent from these figures. We are told  
that the Canadian protective system  
has brought \$500,000,000 in American  
capital to Canada for investment in  
manufacturing establishments, but,  
curiously enough, we are buying more  
manufactured goods from the other side  
every year. As a matter of fact, most  
of the branch factories in Canada are  
little more than forwarding agencies,  
so that the benefits derived from the  
great influx of American capital are  
more apparent than real. A reciprocal  
trade arrangement with Washington  
that would enable us to sell more to  
the United States and an extension of  
the British preference under which we  
could purchase more from the United  
Kingdom would do much to offset that  
adverse balance.

### OUR EDUCATIONAL PROGRESS.

On more than one occasion distin-  
guished visitors have commented ad-  
miringly on the excellent facilities for  
common education which exist in this  
province. They have been surprised  
that so young a province with a rela-  
tively sparse population should possess  
such a large number of fine urban and  
rural schools and have told us that we  
have every reason to be proud of the  
advance we have made in this impor-  
tant department. In his address at the  
laying of the corner stone of the new  
Esquimalt schoolhouse on Saturday the  
Minister of Education pointed out that  
nothing showed the progress of the  
province so unmistakably as the school  
returns. Our own observation in Vic-  
toria shows how true this is. It is only  
a few years since our pupils were  
housed in three or four buildings of the  
most unpretentious character. Now  
there are imposing structures in all  
directions, and even yet we have not  
solved the problem of adequate ac-  
commodation. A similar advance is  
shown in all our cities.

Hon. Dr. Young further said that the  
provincial and municipal authorities  
expended annually on education \$6,000,-  
000. This is a large sum, but it could  
be devoted to no better purpose. Upon

the extent to which we provide educa-  
tional facilities for our youth depends  
the future of this country. Every dol-  
lar devoted to the purpose is an in-  
vestment whose dividends cannot be  
estimated in figures. The time, no  
doubt, is at hand when our system  
will be improved along more practi-  
cal lines, but in the meantime we  
cannot give too much attention to the  
extension of elementary education in  
every community which has a sufficient  
number of representatives of the rising  
generation to justify the erection of a  
schoolhouse.

But it is not alone in the number and  
style of our buildings that this prov-  
ince has achieved impressive progress.  
The character of the instruction im-  
parted has made strides of equal  
length. British Columbia students  
have more than held their own in the  
higher institutions of the continent.  
Our matriculants and graduates have  
taken prominent places in the leading  
divisions and on some occasions have  
led the Dominion, which, in our opin-  
ion, is one of the most effectively strik-  
ing advertisements this province could  
have.

The extension of common educational  
facilities is one of the triumphs of de-  
mocracy. Time was when only the  
children of wealth and luxury could  
enter the atmosphere where instruction  
in even the elementary subjects could  
be obtained. But one by one the bar-  
riers were removed and now, especially  
in this new world, it is within the reach  
of every one. Instead of being de-  
nied admission our youth are com-  
pelled to attend up to a certain age,  
which shows how great a gap has  
been bridged by human progress.

We believe the cause of education is  
very close to the heart of the minister  
who has charge of this all-important  
branch of our public service. What-  
ever other aspects of the administration  
of affairs by the government of which  
he is a member we may oppose, we  
have nothing but commendation for  
every sincere effort that is being made  
to further this phase of our social de-  
velopment.

### COMING AROUND.

The London Morning Post, the big  
aristocratic journal recently purchased  
by that ardent imperialist from New  
York, William Waldorf Astor, is pre-  
paring public opinion in England for  
another somersault by Mr. Borden on  
the navy question. In doing so it  
mixes the navy proposition with its  
tariff reform fetter, and says it does  
not blame Sir Wilfrid Laurier from  
"drawing away from the Imperial  
circle," his attitude being the natural  
consequence of the refusal of the  
motherland to give Canada reciprocal  
tariff treatment. In other words Cana-  
dian imperialism is a purchasable  
commodity. Give her a trade prefer-  
ence in the British market, no matter  
what taxation burdens it may impose  
upon the people of the Old Country,  
and Canada will be truly devoted, and  
can be depended upon to show her  
gratitude in the shape of contributions  
to the admiralty. Can anything be  
more contemptible and insulting to  
Canadian sentiment than an attempt  
to foist upon the United Kingdom the  
discredited system of protection by  
arguments of this kind? And can any-  
thing be more injurious to Imperial  
connection than this complication of  
the navy question with that of trade?

There is something so peculiarly As-  
torian in this brand of political philo-  
sophy, something so vividly sugges-  
tive of huge rentals from Fifth avenue  
and Broadway, that one is irresistibly  
forced to the conclusion that British  
Toryism, as represented by the Post,  
has been taken into camp altogether by  
tutthunting money-baggers. In at-  
tacking Sir Wilfrid's Canadianism and  
by implication questioning the loyalty  
of Australia, the Post ignores the fact  
that it was the Liberal statesman who in  
1887 gave to British producers with-  
out a condition a trade preference over  
our market, a proposal which was fought  
tooth and nail by Mr. Borden and his  
friends, who, if they dared, would re-  
peat that preference to-morrow.

But it is this extract from the Post  
that will arrest attention:

"The British-Canadian may be moved  
by racial sentiment toward a policy  
which is noble and generous, but we  
can not, in fairness, expect so much of  
Canadians who are not of British  
blood. If Mr. Borden finds battleships  
based off Canada, manned by Cana-  
dians, and controlled in times of peace  
by the Dominion government, a more  
convenient and practicable policy, such  
a change in method would, in no way,  
be a reflection on his consistency, and  
he might find such a policy an effective  
means of testing the sincerity of the  
obstructionists."

The Post ventures to suggest that  
Mr. Borden may change his method  
without changing his principle, just as  
Australia was forced to make a  
change.

Canadian sentiment if he follows the  
same course.

But underlying the sophistries of the  
Post is the reluctant admission that  
Mr. Borden has blundered into a hole.  
He says he is opposed to a Canadian  
navy on the ground that it would take  
too long to be made effective, that it  
could not be adequately manned, and  
that it would cost too much. He also  
declares that he is opposed to a sys-  
tem of permanent contributions.  
Nevertheless he must have a perman-  
ent policy. His suggestion that Cana-  
da be given a voice in the foreign  
policy of the Empire was killed last  
February by the Colonial Secretary,  
who explained that this must remain  
the exclusive prerogative of the British  
cabinet. What then can Mr. Borden  
do? The Post predicts that he will be  
compelled to revert to the Canadian  
policy he advocated in 1909 and re-  
pudiated in 1910, and pleads with an in-  
dulgent public opinion not to brand  
him with inconsistency. As far as the  
Liberals of Canada are concerned, if  
Mr. Borden will proceed under the  
navy legislation now on the statutes  
in a sincere effort to carry it out, he  
will be welcomed to the fold with  
something of the warmth which char-  
acterized the return of the prodigal  
son. The only regret will be that we  
have lost two good years in conse-  
quence of his lack of a statesman's  
forethought and a statesman's backbone.

### ONE OF INDIA'S PROBLEMS.

There is still a part of the world, and  
in many respects the richest part of it,  
in which the fauna refuses to recognize  
the absolute dominion of proud man.  
That section is, of course, India. This  
firm and on the whole benign rule of  
Britain has reduced the once warring  
and exterminating factions there to  
order, and justice is administered de-  
spite tremendous difficulties to the im-  
mense advantage of the polyglot  
population. But subduing the wild  
beasts and venomous reptiles which  
seem to increase in numbers notwith-  
standing the constant warfare that is  
waged against them is quite another  
matter. Possibly the inherent fatalism  
of the natives of the East has some-  
thing to do with the conditions which  
still exist. Whatever the facts, the  
latest statistical abstracts issued by  
the government show that in ten years,  
1902-11, no fewer than 243,314 persons  
were killed by wild beasts or snakes in  
India. For this terrible toll of human  
lives snake-bites were mainly respon-  
sible, the aggregate number of victims  
being 220,834. Tigers accounted for  
5,425 persons, leopards for 3,879, and  
wolves for 2,781. In the same period  
99,418 cattle were killed, chiefly by  
leopards and tigers. During 1911-25,242  
persons were killed and 102,240 cattle.  
The wild beasts and snakes destroyed  
number 197,544. The numbers destroyed  
represent large increases on the  
figures for any previous year, and the  
total amount paid in rewards for their  
destruction was 443,671. In 1911 there  
were 181,919 licenses to destroy wild  
animals in force under the Indian  
Arms Act.

A court for the revision of votes  
lists sitting at Grimsby, England, has  
struck the name of Wilfrid Doughty,  
J. P., off the rolls. Mr. Doughty is a  
son of the sitting member for the dis-  
trict, Sir George Doughty, and is said  
to have been absent from the country  
for eighteen months, residing in Brit-  
ish Columbia. The poor Old Country  
must indeed be going to the dogs when  
the absent sons of local magnates can  
be treated in such an ungracious man-  
ner. But that is not the only sign of  
decadence. They are going to adopt  
the principle of "one man, one vote"  
over there, and many magnates who  
are accustomed to casting ten votes to  
the one of their neighbors will be re-  
duced to common factors in political  
campaigns. No wonder the privileged  
classes rage and transplanted Ameri-  
can millionaires imagine vain things.

This week the Underwood tariff bill  
will go into effect, and from every part  
of Canada we read the inquiry: What  
is our government going to do about it?  
Here is a sample from the St. Thomas  
Journal, a newspaper published in one  
of the finest agricultural districts of  
Ontario: Canadian produce will flow  
steadily to America under the new  
tariff of rather absence of tariff, and  
there will be nothing to take its place.  
No return flow, except that which is  
heavily taxed. Is this a condition tend-  
ing to cause the people of Canada to  
congratulate each other? If the Ameri-  
can government has ceased to rob  
the people, why should not the Cana-  
dian government, do as much for the  
consumers in this country? The  
farmer of the west may send his wheat  
and his cattle to the States, but he will  
still be penalized for every machine he  
uses on his farm, for the corn he re-  
quires to fatten his stock, for every  
foot of lumber which he uses for his  
buildings, and for every shred of cloth-  
ing which he wears.

Our contemporary comments upon  
the singularity of the fact that the St.  
Thomas Journal and itself published  
editorials on Canada's pioneers  
at the same time. We believe  
this coincidence can be easily  
explained without any reference  
to abstract psychology or thought  
transference. It is purely a study in

## An Interesting Display of Women's Fashionable Coats Costing Only \$8.75, \$13.75, \$15.00 and \$17.50

INTERESTING because they represent a very high  
standard of quality and embody those features  
that add so much to your personal comfort, con-  
venience and appearance when on the street in cold or wet  
weather. They are not really elaborate, but come in pleas-  
ing and serviceable styles, made to fit snugly and to im-  
part just as much comfort as it is possible to expect from a  
good coat. Tweeds, whipcords and all the new novelty  
materials are here, and you can choose from over 200 gar-  
ments in all the leading shades and patterns. Various  
styles are to be had, some having wide belted backs, deep  
turnback cuffs, and most have the reversible collars that  
can be buttoned up close to the neck or showing a neat lap-  
el effect.

Let us show you these lines. We have all sizes from 14  
years to 42 bust, and from an assortment like this there is  
sure to be a style that will delight you

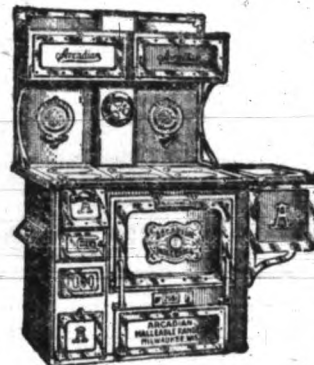

—First Floor

## Men's and Women's Shoes—Showing New Fall Styles

OUR new Fall goods in Men's and Women's Footwear have arrived, and we invite you to come  
and inspect them. The Women's Shoes are displayed in the department on first floor,  
and the Men's Shoes on main floor. All that fashion has predicted shall be worn this season  
will be found well represented in both style and materials, while the qualities are the best that  
money and experience can offer at the prices quoted.

Women's Patent Button Boots, with short vamp and stub toe. Per pair, \$3.50 and.....	\$4.00		

## The Arcadian Is the Range We Guarantee

Because it's the most practical and best-built range on the market.  
Easy to Use. If you must cook and bake at least make your work as easy as you can.

Saves Time. Listen: In a single year you prepare more than 1000 meals. Figure it out. If you save no more than a minute a meal that means a thousand minutes, or 17 working hours. With the Arcadian Range you can save weeks of hard work and miles of weary foot-steps.

It Saves Labor. The Arcadian has lots of conveniences not found on other ranges. Too many to set down here. Let us show you them.

It Saves You Money. Fuel burnt to excess is money lost. Time in many cases is money. You don't have to watch the Arcadian. Just set your draught controls and it will do what it is told alone.

It Lasts a Life-Time. The Arcadian will give you faithful service for the rest of your life and solve the Range problem once for all.

Send for illustrated booklet or call and examine one.

"Lectures on Christian Science."—Prof. Hermann S. Hering, C. S. B., of Concord, New Hampshire, Member of the Board of Lectureship of the Mother Church, The First Church of Christ, Scientist, in Boston, Mass., will deliver a Free Lecture on Christian Science under the auspices of First Church of Christ, Scientist of Victoria at the Drill Hall, Menzies street, Monday evening, Sept. 29, at 8.30. The public is cordially invited to be present. No collection.

Baby Car Spa, 753 Fort St.

The Umbrella Shop, 610 Pandora St.

Fresh Killed Lamb.—Forequarters, 15c lb.; hind cuts, 25c; Brown & Cooper, 910 Gordon St.

A Dance Will Be Given in the Victoria Club, Campbell Building, on Saturday, October 4 and 11 at 8.30. Tickets \$1, including refreshments can be had from Mrs. Michael Hallward, 1028 Hulton Street. Phone 13381.

Squat Jelly Glasses.—Hold ½ of a pint, have tight-fitting tin covers, are slightly moulded on inside. Easy to turn out. 50c dozen at R. A. Brown & Co., 1302 Douglas Street.

The Lost Millionaire.—Interest will be aroused in this most interesting story which will be exhibited at the Majestic theatre to-day and Tuesday, showing a young millionaire who loses his memory by a strange accident just as he is about to close the purchase of a large coal field at "Hell's Gap," in an unsettled territory of the Far North. His agent tries to outwit him on the deal and incidentally to ingratiate himself with the pretty daughter of the old settler, from whom the purchase was made. The young man wanders away and by strange disposition of fortune reaches "Hell's Gap," where he meets the owner of the coal mine and his daughter; recovers his mental faculties and becomes engaged to the girl. He tells her who he is and completes the purchase of her father's property and marries her. This brilliant Vitagraph will unquestionably meet the deserved plaudits of an appreciative public.

Another Woman Sent Up.—She sent her husband up to take advantage of our sale of 15-piece toilet sets. Pretty patterns in green, in pink and in blue. One-third off regular prices. 35 sets for \$3.35; 24 sets, \$3; \$2.50 sets \$2.35. R. A. Brown Co., 1302 Douglas Street.

Film Censor in Town.—C. L. Gordon, Vancouver, the official censor of moving picture films for this province, is in the city to-day on a business visit.

Strawberry Vale Church.—Good progress is being made on the Strawberry Vale Methodist church, which is under construction at the corner of Wilkinson and Glyn roads, not far from the present structure. It will be a picturesque building, the design being prepared by Butler and Harrison. The contractor is G. Houghton.

Missing Man Sought.—The police are in receipt of a request from Mrs. Archie Greer, Nanaimo, York county, New Brunswick, asking for information of her brother, George S. F. Greer, whose wife heard from him last on April 15, when he was about to go out to Sooke on a survey party or as a lineman. He has a wife and two children in Nanaimo who are anxious to hear from him or of him.

More New Books.—The following books have recently been added to the Booklovers' Library: The Way of Ambition, Robert Hichens; The Isle of Thorns, Sheila Kaye Smith; The Way Home, Author of "Inner Shrine"; The Devil's Garden, W. B. Maxwell; How Many Miles to Babylon, M. E. F. Lewis; Fifty the Poor Blind, Bushford; Sandy Married, Dorothea Conyers; Eldorado, Baroness Orczy; Headquarters Recruit, Richard Dehan; The Maiden Manifest, Della MacLeod; The Woman Thou Gavest Me, Hall Caine; The Power Behind, M. P. Willcocks.

Fire Protection of Northern Suburbs.—As a result of a meeting on Saturday between Alderman Fullerton, Reeve Nicholson, and Fire Chief Davis to discuss a scheme for protection of the suburban portion of Saanich municipality, it was decided to report to the city council this evening in favor of an arrangement similar to that which prevails with Oak Bay, the district paying \$100 a month and installing hydrants. The Douglas Street hall is to be motorized in order to make the long runs which will be involved.

Ball for 'Orphans' Home.—The preliminary arrangements for the ball to be held in aid of the Protestant Orphans' Home on October 24, were made on Monday last when a representative working committee was appointed with Miss Dorothy McTavish, president; Miss Helmecken, hon. secretary, and Miss Lillian Smith, hon. treasurer. Committees on reception, floor management, refreshments and decoration were arranged. The event under the patronage of his honor, the Lieutenant-governor and Mrs. Patterson, Sir Richard and Lady McBride, his worship, the mayor and Mrs. Morley, Senator and Mrs. Macdonald, Colonel Currie and the officers of the Fifth Regiment, Charles Hayward, president of the board of management and Mrs. G. A. McTavish, president of the ladies' committee.

Third Unit Next Year.—It was stated this morning that the third unit of power at the Jordan River plant will not be in operation at Jordan River until May or June of next year. Work on the power connection is now being thrust forward with all speed.

Notice to Restaurant and Hotel-keepers.—For sale, a two-oven eight-foot steam table; vegetable-peeler and motor capacity, one bushel of potatoes every five minutes; also two-horse-power steam boiler. Apply Steitz Restaurant, 570 Yates St., city.

Busy at Jordan River.—Consignments of pipe line are arriving at the British Columbia Electric Railway plant at Jordan River every other day. Several thousands of feet are being used to convey water down the waterways from the reservoir to the powerhouse.

Fellowship Tea, Y. M. C. A.—Yesterday afternoon at 5.45 at the Y. M. C. A. the first Fellowship Tea of the season was held, about forty members being present, after listening to an address by Dr. Darby of the International Peace Society. The first Round-Up of the season was held last evening at 9 o'clock, when sixty men gathered in the main hall to hear Mr. Short's address on "How Best to Live." The speaker pointed out that making money was a secondary consideration in life, the first being to be of service. A social hour was enjoyed round the fire afterwards.

Adjournment Granted.—Owing to the absence at the fall assize of the principal witness for the prosecution, the case in police court against John Temple, licensee of the Canada hotel on Broad street, summoned for selling liquor to a minor, Fred Casey, on September 12, was adjourned till Wednesday, when a date will be set if the witness is not then free. This was the decision reached this morning, A. S. Dumbleton, for the defence, objecting on the ground that he had his witnesses ready to be called. After hearing Prosecutor Harrison's statement that Casey was chief witness, Magistrate Jay let the case stand over.

### JAIL IS RISING

Administrative Block is Constructed to Top of Second Storey—Much Work Yet.

The provincial jail at Wilkinson road is now sufficiently advanced for some idea to be formed of the general design. The administrative block in the centre front is up to the top of the second-storey level, and the effect of the octagonal towers can be appreciated, giving a distinctly Tudor appearance to the building.

The portion of the building which is most advanced embraces the warden's quarters and the offices in the administrative block, while much progress has been made on the wings where the cells will be located. A considerable amount of dressed stone has been used, and the outlining of the windows with a different colored brick is a proof of the artistic sense of the architect, W. Ridgway Wilson, the idea being to convey the impression rather of a barracks than a jail.

A large staff of stonecutters has been engaged for some time, their work now rapidly closing up. Other classes of building labor will be engaged for a long while yet in the construction of this large institutional building, which is being built by the British Columbia Construction and Engineering Company.

land in the eastern part of West China, with headquarters at Chinkiang and is stopping for a few days in Vancouver.

Mr. Walker has been on a furlough of eighteen months and with Mrs. Walker has been visiting his old home in Scotland. He has been in China twenty-eight years and his principal work is to distribute the Holy Scriptures throughout the country. In this work he employs a staff of seventy native assistants. He was in China during the recent rebellion. Being only fifty miles distant from Nanking he could hear the booming of the heavy guns during the siege of that city. He was a prominent organizer of relief during the last great famine in China. During his long service he has become personally acquainted with many of the leading Chinese officials and unhesitatingly declares Yuan Shi Kai to be the strongest man now in the nation.

Fire Outbreaks.—On Saturday evening the department was called to a stable at the rear of 2523 Ross street, where the premises occupied by Hookam Singh were on fire. The loss was small, the animals being removed before the flames reached them. Last evening at 4.30 the department made a quick run to 1607 Fairfield road, where the heating of a stove with bark had caused a great blaze. It was quickly extinguished.

Minister is Back.—After a trip which took him from here to Calgary and then to Edmonton, Fort George, Fort Fraser and Prince Rupert, Hon. Price Ellison, minister of finance and agriculture, is back in the city. Mrs. Ellison's object was to reach Prince Rupert to open the annual fair there, and he decided to see as much of the country on the way as possible, instead of going by boat to the northern city. His party had several interesting

experiences on the Fraser River. As the water was too low for the regular steamers, the party went by launch and canoe. Several times the small craft collided with stones.

**NO MORE DANDRUFF OR FALLING HAIR**

Parisian Sage is Your Friend. Use It and All Hair and Scalp Troubles Quickly Go

No poisonous sugar of lead—no sulphur—no dye in **PARISIAN Sage**. The cleanest, daintiest, most refreshing and delightful hair tonic in the world is **PARISIAN Sage**. If you do not use it you are daily missing a glorious treat. It is simply splendid for men, women and children. It is sold at drug and toilet goods counters for only 50 cents a large bottle. Ask for **PARISIAN Sage** for your own protection. The girl with the Auburn hair is on every carton and bottle. **PARISIAN Sage** drives out all dandruff and stops hair from falling in two weeks. It stops itching scalp in 12 hours.

It is a hair nourisher and promptly puts life, luster and beauty into dull, faded and ill-looking hair. Hugh D. McKinnon, of Brantford, Ont., writes: "I consider **PARISIAN Sage** the best preparation for the cure of dandruff, falling hair and itching scalp that I have ever used. It is an excellent hair tonic and dressing and I shall always be pleased to highly recommend **PARISIAN Sage**."

## WHY NOT PREPARE YOUR HOME FOR SPENDING A COMFORTABLE WINTER?

### Better Heaters or Lower Prices Could Not Be Wished For

Samples will be shown in our Government street window on Wednesday morning. Nothing like seeing them and comparing the values with any other line you have yet seen.

Styles for every room in the house are here. Our usual discount of 10 per cent comes off the already low price, if you pay cash, and we are ready to arrange easy terms for you if you desire them.

### A Few Well Chosen Draperies Give a Tone of Comfort to the Home

No matter how good the furniture may be, your rooms would look decidedly cold and much less inviting if it was bare of draperies and curtains.

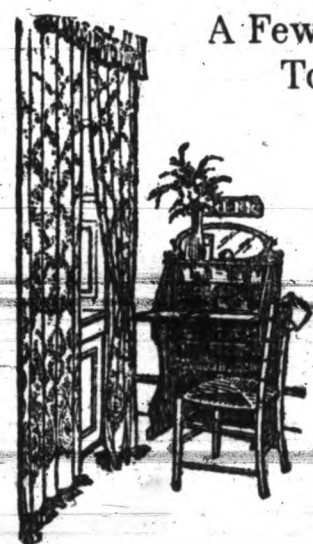

Let your windows and doors have appropriate hangings, just a touch of drapery on the mantle shelf and the room has a warmer, brighter and much more inviting appearance.

We can assist you to get excellent results from a moderate expense.

Our expert decorators are ever ready to give you advice on color schemes, styles and qualities of materials. This service is absolutely free.

Carpets of every description in all the regular sizes or made up in any special size or shape to order.

Describing the many beautiful fabrics now in stock is too large a task to accomplish in this space, so please accept our invitation to inspect them at your leisure in our showrooms.

### BLANKETS

NOTHING LIKE HAVING A GOOD SUPPLY OF  
THE REAL SCOTCH WOOL

So fleecy and soft is the surface, so light in weight but warm that it is no wonder that discriminating shoppers prefer them.

Then they are really cheap because they easily outlast two pairs of the lower-priced grades and give greater satisfaction into the bargain.

## VICTORIA COUNTRY CLUB MEET

STARTS AT THE WILLOWS TO-DAY

### Long-Shots Ramped Off With Money on Saturday; Jockey Clash During Race

Outsiders enjoyed another good day at the willows on Saturday, the favorites getting a real trimming by the longshots that the public overlooked. One of the biggest crowds of the meet was on hand to witness the eight-race card. The track was in fine shape, and while the sky was overcast early in the afternoon, the weather was at the best.

Jockey McBride was set down by the judges for beating Jockey Gargan over the head with his whip during the running of the first race. McBride was riding Boy Junior, the favorite, and Gargan was up on Amador. The horses were racing neck-and-neck on the back stretch, with Calumet out in front when the foul occurred. Neither horse had a chance to get into the money, Calumet having an easy win, with Prince Winter second and Mabel King third. All of the placed horses paid well, Vandell's mare paying \$5.50 to show.

Railcliff Wins Feature. That six race was a real contest, the class of the entire stables at the meet being entered for this event. Gaty Pullen and Chief Desmond were pitted off the boards to win, but first money went to Railcliff, of the McKinney stables who came through in the stretch to win in convincing style from the favorite. Voladay Jr., nosed out Gaty Pullen at the wire, McDowell giving the Little Iron Horse a very poor ride. Efficiency captured the second race from Madeline B. in a nice finish, the latter being the public choice. Efficiency broke from the barriers in front, and Hill never gave the field a chance to get into the money. He carried a lot of money and wound up in third position, having no chance whatever of winning.

Frank Kelley made a game effort to score another win on Commendation, but Binocular came through with a real race and nosed the veteran out at the wire. Hazel C. was left at the post, never getting thrown when the gate

## CLOSE GAME WHEN SCRATCH SIDES MET

### Australian Cricketers Mixed With Victorians in Enjoyable Game Saturday

An enjoyable match between scratch sides of Australians and Victorians was played at the Jubilee hospital ground on Saturday afternoon when a team captained by Diamond defeated the home side by a score of 8 to 2. The only player on Captain Diamond's side to give a good account of himself was D. Grant, the Aldon smiter. Sparks and Macartney were the most successful bowlers.

For Captain Campbell's side Macartney played a great innings for 78 runs composed mostly of boundaries from strokes all round the wicket. H. L. Collins, a poor third, Little Jake failed to last the route, while Fitzgerald was trailing all the way. Moller, the longest shot of the day, furnished a genuine surprise when he uncorked a burst of speed in the last furlong that won him the victory by a neck from Lady Pender and Miss Sly. Cavanaugh rode a beautiful race, lying back until the stretch head, when he whipped Moller under the wire a winner. Eight horses started, Moller paying \$15.50 for a \$2 ticket.

Swede Sam sprinted in a winner in the final of the day, pacing off at the rate of five to one. Brown and Shawne battled to the stretch, where Swede Sam responded to the urging of O'Brien and won in a drive. Shawne and Helen Hawkins were the public choice for first money, but the latter failed to show her previous form, failing to get her previous form.

Country Club Starts. Starting to-day, the Victoria Country Club intends to continue its racing meet for the next two weeks. The same officials are slated to be in charge, and it is stated there will be no change from the present handling of affairs or programme, with the exception that the Country Club will be in charge.

## REMARKED ON THE SIDE

Canuck Retains Sculling Title. Whatever success Canada may have in competition against American athletes in other sports, the Maple Leaf waver supreme when it comes down to rowing, and this was again demonstrated at Toronto on Saturday when Eddie Durnan defeated Greer, of Boston, in a match race for the North American professional title. Durnan has held this honor for the past six or seven years. He challenged for the world's title. Barry had little trouble in defending this title, but all the same Durnan is no slouch. He is a beautiful sculler and with a little more weight would have a real chance for Barry's title. Canada also holds the amateur titles of the United States, Dibble and Butler, of Toronto, being a pair of the fastest amateur scullers in the world.

Amateur Lacrosse is Again Booming. Though Victoria's hopes for the Mean Cup were squelched in easy fashion by the Vancouver Athletic Club, the Capital City twelve intend going after this honor again next year. The host of challenges for the title that have been accepted by the committee is another evidence of the renaissance of Canada's national game throughout the Dominion, and it really looks as if the sport was going to come back bigger, better and greater than ever. The pro's have had their troubles, but there has never been such a successful season of amateur lacrosse. The expansion of the game is merely a matter of time and the fact that the challenge clubs are willing to travel thousands of miles after the trophy shows that the interest in the sport is certainly not on the wane.

## JOKE GAMES WIND UP THE SCHEDULE

Bees Hand Contest to the Tigers in Fast Time; Farce at Spokane

Tacoma, Sept. 28.—Tacoma and Victoria closed the Northwestern League baseball season here yesterday by playing one of the fastest games in baseball history and establishing what is said to be a record in this league. They played a nine inning game in 44 minutes. Although Victoria made eight hits, half of which were good for two bases, the locals bunched Million's single and Fries' freak home run for two tallies in the fourth inning. The score:

Victoria	A.	B.	R.	H.	P.	O.	A.	E.
Crum, l. f.	4	0	0	2	0	0	0	0
Rawlings, 2 b.	4	0	2	3	2	0	0	0
Alberici, c. f.	4	0	2	0	0	0	0	0
Brooks, 1 b.	3	0	1	3	0	0	0	0
Delmas, s. s.	3	0	0	1	2	0	0	0
Lamb, 3 b.	4	0	1	3	4	0	0	0
Brown, r. f.	4	1	1	1	0	0	0	0
Brouten, c.	3	0	0	0	0	0	0	0
Narveson, p.	3	0	1	0	3	0	0	0
Totals	32	1	8	24	12	0	0	0

Tacoma	A.	B.	R.	H.	P.	O.	A.	E.
Coen, s. s.	3	0	0	1	3	0	0	0
Million, l. f.	3	1	1	2	0	0	0	0
Neighbors, r. f.	1	0	0	0	0	0	0	0
Kurfeis, r. f.	1	0	0	0	0	0	0	0
West, 1 b.	3	0	0	8	1	0	0	0
McMullin, 2 b.	3	0	1	2	3	0	0	0
Keller, 2 b.	3	0	0	6	3	0	0	0
Kelly, c.	3	0	0	0	0	0	0	0
Griot, p.	3	0	0	0	0	0	0	0
Totals	26	2	3	27	16	0	0	0

Score by Innings:  
Victoria ..... 0 0 0 1 0 0 0 0 1  
Tacoma ..... 0 0 0 2 0 0 0 0 3  
Summary: Double plays—McMullin to Sumner; Double plays—McMullin to West. Two-base hits—Alberici (2), Rawlings, Brown. Home run—Fries. Struck out—By Griot, 3; off Narveson, 1. Time—44 minutes. Umpire—Toman.

Seattle, Sept. 28.—Vancouver won the last game of the season, and defeated Seattle by a score of 8 to 2. Seattle used three pitchers, Dell, Reardon and Schneider and the three allowed a total of thirteen hits. Dell, who was touched for ten of these, was taken out in the eighth when the visitors had six runs. Clark, who pitched for the visitors, allowed nine hits.

Spokane, Sept. 28.—Portland took the first game of a double header from Spokane yesterday 10 to 2, and clinched second place in the league race, and then turned the second contest into a farce affair which was called in the fifth with the Indians in front by a score of 6 to 1. In the first game the home side, coached by Douglass, had while Spokane was unable to do much with the offerings of Callahan or Martindale. The Portland and Spokane players shifted all over the field in the second game, and pulled all kinds of horse play. The fans crowded on the field to take part in the fun, but Umpire Ostleick called the game.

## CANNUCK WINNER.

Toronto, Sept. 28.—Eddie Durnan, of Toronto, champion sculler of America, successfully defended his title on Toronto Bay against Frank Greer, of Boston. Durnan won by four lengths.

# The Style--the Smartness That Appeals to You

Do you know that we have one big exclusive privilege in Victoria?

This is the only store that can sell you Stein-Bloch smart clothes.

They are truly smart—just the degree of smartness that you have in mind.

Perhaps your style might be expressed as the "conservative extreme."

Only a few minutes necessary to pick out the particular model that appeals to you and then step in front of our big mirror for the answer.

## HATHAWAY TROPHY WON BY GOEDUCK

It was announced on Saturday evening by G. W. A. Green, chairman, Royal Victoria Yacht Club Motor Boat committee, that the Goeduck, a fast Seattle day-cruiser, owned by H. Norris of Seattle Yacht Club, and designed by Ted Geary, naval architect, also of Seattle, had won the handsomest trophy ever put up for American power boat men to race for. The Hathaway trophy is an immense silver punch bowl surrounded on a silver tray by some dozen or so flags of similar design to the punch bowl. The winner of the trophy keeps it for one season, and returning the whole, keeps one of the flags as a memento. This flag is, however, replaced by another which keeps the rest intact for the next winner.

The Goeduck, 55 feet in length, met with severe and boisterous weather off Seattle for some way, but had a smooth run most of the way across the Straits. Owing to the heavy sea that was on at the beginning of the run many craft turned back, while one had her propeller damaged by driftwood and had to put in at Port Townsend. The run of 80 miles was covered in 4 hours 45 minutes (7.30 a. m. to 12.15 p. m.) against a heavy flood tide, and for part of the way a heavy head and

beam sea. It is believed that this is the fastest time yet on record for crossing the Straits in a cruising yacht. Those of the party on board were Mr. and Mrs. H. Norris, Mrs. Jack Barry, Ted Geary, navigator and engineer.

## EASTERN RUGBY.

Calgary, Sept. 28.—After a game marked by several free fights and a near riot, the Hamilton Tigers walked off the field, winners of Saturday's Rugby match by a score of 19 to 2. In its first Rugby game of the Eastern Canadian season, the Ottawa team defeated the Alerts, of Hamilton, by 17 to 12, at Ottawa.

## DECISION UNPOPULAR.

Sydney, N. S. W., Sept. 28.—Matt Wells, the English lightweight pugilist, was given a verdict on points over Owen Moran, another British pugilist, in 20 rounds. The crowd of 7,000 persons in the stadium booed the decision.

## BIKE CHAMPIONS.

Toronto, Sept. 28.—Cardner, of Minneapolis, won the three-mile professional cycle championship of Canada. He beat C. H. Jones, the American champion. Gardner won the 15-mile race.

## The World's Greatest in Their Respective Lines

Here they are. Check them off, then pinch yourself to see whether you are really awake. Facts cannot be denied though.

**ELBERT HUBBARD**—Banker, business man, publisher, and \$1,000 a week vaudeville artist.

**WALTER JOHNSON**—Star pitcher of the Washington baseball club.

**FRANK CHANCE**—The peerless leader, formerly of the Chicago Nationals, now leader of the New York Americans.

**JACK LONDON**—America's greatest fiction writer.

**EDDIE FOY**—The world's greatest comedian.

**ED. WALSH**—Known as the Big Moose. Considered by many to be the greatest baseball pitcher the world has ever known.

**TYRUS COBB**—The Georgia Peach, greatest fielder in the history of Baseball.

**NAT WILLIS**—The comedian of nation-wide reputation.

**JIMMIE POWERS**—The great actor.

And there are scores of other notables that are doing the same and what are these men doing?

## They Are Wearing Royal Tailored-to-order Clothes

With these men, buying a suit of clothes is of no consequence as far as money is concerned. They wear Royal Tailored-to-order clothes because they like them best. It is a case of Satisfaction with them and Royal Clothes satisfy.

Above are some of the crowned heads of America in their respective lines that wear Royal Tailored-to-order clothes. "Every man is a king in America," said Andrew Carnegie. "Get in line, your majesty." A Royal tape line is awaiting you at Spence, Doherty & Co.

### "The Gift Centre"

### THE INDESTRUCTIBLE INVESTMENT

### A DIAMOND

There is probably no other commercial commodity to-day that carries such an established surety of value as the diamond.

As the world becomes more and more aesthetic, the demand for perfect diamonds increases, and all the time the supply is becoming scarcer.

It is this condition which makes a diamond bought here an indestructible investment.

In selecting our gems we adhere to absolutely the highest standard by which diamonds can be judged—perfection of color, cutting, quality.

Our prices are the same as last year.

### TOURED ORIENT

W. P. Morris and Party Return From Visit to Orient; Opinion on Asiatic Problem.

Preconceived impressions of a country are not always justified in the light of after experience but a passenger from Philadelphia who arrived on the Empress of Russia Saturday, and proceeded later to Seattle takes the reverse view when applied to the Orient.

The passenger was W. P. Morris, who with Mrs. Morris, and the Misses Morris, a daughter and niece, have been travelling for some time in Japan, visiting also Shanghai, where Mr. Morris has a brother-in-law.

He expressed the opinion that conditions in the Orient were satisfactory and declared that there were opportunities of development which people in the great cities of the Eastern States did not realize. He had been brought face to face with the Oriental at home, and while he still took the average Eastern attitude of wonder at the aversion shown off the Pacific Coast to the Oriental, he understands something now of that enterprise, industry, and plodding endeavor which makes the Oriental a serious labor competitor with the white man in his home land.

Mr. Morris spent the day in Victoria and the family are delighted with the city.

### A HAPPY CHILD IN JUST A FEW HOURS

If Cross, Feverish, Constipated, Give "California Syrup of Figs"

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered.

When cross, feverish, restless, see if tongue is coated, then give this delicious "fruit laxative." Children love it, and it cannot cause injury. No difference what all your little one—if full of cold, or a sore throat, diarrhoea, stomach-ache, bad breath, remember, a gentle "inside cleansing" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup.

### WEATHER BULLETIN

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, Sept. 29—5 a. m.—The barometer is high along the coast, and, with the exception of rain in Northern British Columbia, fine weather is general both over the Pacific slope and throughout the prairie provinces.

### City of Victoria

#### MUNICIPAL NOTICE

The "City of Victoria, British Columbia, Supplementary Waterworks Loan By-Law, 1913."

I hereby give notice that such of the Electors of the Municipality of the City of Victoria as are entitled to vote on a by-law for raising money upon the credit of the Municipality, are requested to attend at the polling place known as the Police Court in the City Hall, in the said Municipality, on Thursday, the second day of October, 1913, from 9 a.m. to 7 p.m., and to record their votes for or against the passage of the "City of Victoria, British Columbia, Supplementary Waterworks Loan By-Law, 1913," a copy of which By-Law is published in the Victoria Daily Times, and copies whereof are posted up at the City Hall, and in various other public places in the city, and at the Polling place.

And take notice that the said By-Law will not be valid, or of any effect, unless the vote polled in favor thereof be at least a majority of the votes polled.

Given under my hand at Victoria, British Columbia, this eighteenth day of September, 1913.

WM. W. NORTHOTT,  
Returning Officer.

## Victoria Taxpayers!

Sept. 30 Inst.

will be the

LAST DAY

on which

## REBATE

of 1-6 will be allowed on 1913 TAXES.

Please remit or call early to avoid rush on last day.

Any person desiring information respecting Taxes or a Tax Bill of Victoria real property will be furnished with same on application. My office will be kept open evenings from 7.30 to 9.30 (except on Saturdays) for giving of information but not for receiving payments, which can only be made between the hours of 9 a.m. and 5 p.m., and up to 1 o'clock on Saturdays.

EDWIN C. SMITH,  
Treasurer and Collector,  
Victoria, B. C., Sept. 18, 1913.

#### TENDERS FOR FIBRE CONDUIT.

Sealed tenders will be received up to 4 P. M. on Monday, October 6th, 1913, for 10,000 feet of 2-inch Fibre Conduit. Specifications may be seen at the office of the City Purchasing Agent, to whom all tenders must be addressed, and marked on outside of envelope "Tenders for Fibre Conduit." A deposit in cash of a marked cheque made payable to the City Corporation for 5 per cent. of the amount of the tender, must accompany each tender. The lowest or any tender not necessarily accepted.

W. GALT,  
Purchasing Agent.

Victoria, B. C., Sept. 24th, 1913.

A real buying opportunity is often a transient thing, with restless wings. Sometimes you must take quick action, after reading a special sale offer, if you would not miss the opportunity altogether!

## BABY'S OWN SOAP

### Many happy Mothers

are using Baby's Own Soap in the nursery not merely because they themselves were washed with it, when infants, but also because experience has shown that no other soap will help the skin so much—make it so white, so smooth—be so pleasant to use—and cost as little.

Baby's Own Soap is best for Baby and best for you.

Imitations and substitutes are made as cheap as possible; Baby's Own is as good as possible.

## LECTURE

—ON—

## White Slavery

This lecture is especially instructive and beneficial to every home.

Reserved Seats, 50c and 25c.

Seats now on sale.

### FIRST THINGS

The first lodge of the Order of Orange was organized in Armagh 118 years ago to-day, just a week after the "Battle of the Diamond," between Irish Catholics and Protestants. The "battle" was fought in the hamlet of Diamond, in Armagh. The Protestants engaged immediately began the organization of a secret society, as an association for defence and for the maintenance of Protestant ascendancy in the North of Ireland. While the first regular lodges were formed in 1795, the name and the system of Orangism existed earlier, the name being derived from William III. of Orange. Soon after the launching of the Armagh lodge, a branch was founded in Dublin. A century ago the order began to decline, but it was revived in 1827, when the Duke of Cumberland became grand master. Since then, despite reverses and attempts at suppression, the order has waxed powerful, and it now has a large membership in Canada, the United States and many of the British colonies, as well as in Ireland and Great Britain.

The Annual Sale and Entertainment to be given at the Aged Woman's Home takes place on the 14th and 15th of October instead of the 9th as has erroneously been stated. Plants, cut flowers and home-made candy will also be on sale.

## WELL-KNOWN AUTHOR AND PREACHER HERE

Rev. R. E. Knowles, of Galt,  
Pays Short Visit to His  
Old Pastorate

He is often called "the J. M. Barrie of Canada" for there is in his work that true sentiment and gentle humor of the great little novelist of Kirriemuir. In addition he is a preacher and lecturer of unusual brilliance, a combination that is as rare as it is valuable.

Such is Rev. Robt. Edward Knowles, the beloved pastor of Knox church, Galt, Ont., who is in the city to-day on a short visit. Yesterday the distinguished orator was to have preached at the First Presbyterian church, but a slight indisposition made it impossible for him to attend. He leaves for the East again to-morrow.

Speaking to the Times this morning Rev. Mr. Knowles said:

"Some day before long Victoria will be the scene of a worthy effort of fiction. In fact I am surprised that a great work has not yet been written with this city as foundation. For here is just the right atmosphere—a remarkable combination of the old and the new; the old colonists and the striving, new western element. It is full of color and inspiration."

A score of years have passed since Mr. Knowles paid his last visit to Victoria.

"At that time," he said reminiscently, "Victoria was a beautiful little city lying anchored in the stream of time. Now it seems right in the procession. It appears to be putting on the foliage of a really great city. With its great

unmeasured resources behind, its inimitable climate and ideal conditions of life, there is no reason why Victoria should not become one of the greatest cities of the Dominion. And yet there is about it an air of reposefulness that other cities lack." Yesterday Mr. Knowles motored in the outskirts with the purpose of trying to find out some of the old landmarks with which he was so familiar when he was a preacher in a Presbyterian church of Victoria.

"It was rather painful for me to find," he said, "that so many of the old stations, like Cedar Hill, Craigflower, etc., had been swallowed up in the city. There was scarcely anything left of them that I could recognize. All the old farms, for instance, have been subdivided into town lots. I was at sea. Another thing that I noticed about Victoria and its surroundings, especially since I have visited the Old Country since my last time here, is the very English appearance that most of the things have. I notice it particularly in the foliage and herbage of the city and its suburbs."

"Another factor that I think is bound to react for good on the material welfare of the city is the fact so many people from the prairies are coming in here to live when they have made their 'pile' on the farms and ranches. I was up in the Kootenays some time ago; and up there just as in all the prairie regions, if you inquire after some old timer, the stock answer always seems to be, 'he retired to the coast.' The gravitation to the West seems to be far greater than that to the East."

Practically every year Rev. Mr. Knowles has a new novel to present to the world. He announced this morning that a book is in the hands of his publishers, and will be published next spring. It is called "Mary of Melrose," and will be, as usual, a real Canadian story.

Rev. Mr. Knowles is in his forty-fifth year. He was born in Maxville, Ont., and educated at Galt College Institute.

he has lectured extensively on such subjects as "Secrets of Scottish Success"; the "Imperial Position of Canada"; and is the author of the following novels: "St. Cuthbert"; "The Undertow"; "The Dawn at Shanty Bay"; "The Web of Time"; "The Little Guest"; "The Handicap"; "The Singer of Kootenay."

He is accompanied to Victoria by Mrs. Knowles, a charming lady-hailing from North Carolina.

## EXHIBITION CREATES ATTENDANCE RECORD

Children Admitted Free All  
Week Yet Gate Receipts  
Were Greater

In spite of the fact that all children under 12 years of age were admitted to the exhibition grounds free of charge all week, the gate receipts at the fair this year were several hundred dollars ahead of last year. The tremendous increase in attendance on Thursday was what brought the figure so high, for Tuesday was the only other day when there were more people than on the corresponding day of last year. Saturday fell down before last year because the Duke of Connaught was at the fair a year ago.

One might wonder all through the fair grounds to-day and never guess except from the peanut shells, bits of paper and waste, remnants of lunches, etc., that there had ever been an exhibition here. Promptly at 10 o'clock Saturday night the exhibitors began to take their booths down, and by Sunday night there was not a sign of them left. Most of the livestock left in the afternoon and evening of Saturday, and only the race horses were left by Sunday morning at 10 o'clock.

Two presentations marked the winding up of the horse show Saturday night. Dr. F. S. Tolmie, president of the Agricultural Association, made the presentations in person, thanking, in his introductory remarks, those who had helped make the show a success and predicting bigger and better things next year. Mrs. A. D. McRae was the recipient of the first cup, the Maplewood Farm Challenge Cup, offered by Miss Helen Farrell, of Portland, Ore., for the best feed-milk in the district. The other prize, the cup donated by Dr. Tolmie, himself, for the ladies' single phonon class, Miss Blanche McRae was the driver.

The competitions Saturday night were all of a high order, except that there was practically no competition in the high jump.

Diplomas were awarded by the exhibition association for the best displays by exhibitors in the Made-in-Victoria building. Pendray & Sons, Popham Brothers, the Silver Spring Brewery and the Victoria-Phoenix Brewery Company won the medals and diplomas were awarded to these others: Newton & Greer, Staneland & Co., Ltd., Pendray & Sons, B. & K. Milling Co., Restmore Manufacturing Co., Moore & Whittington, Cameron Lumber Co., Mount Royal Milling Co., Pioneer Coffee & Spice Mills, Shawmoran Lake Lumber Co., Canada Mortgage Title Co., Popham Bros., Lemon-Gomanson Co., Victoria Show Case Co., B. C. Pottery Co., Ltd., Canadian Puget Sound Lumber Co., Capital Furniture Co., Jameson's Coffee Co., San Juan Mining Co., F. Norris & Sons, Hutcharm Co., Baker Brick & Tile Co., Wales, Ltd., Modern Colonist, Sylvester Feed Co., Hinton Electric Co., B. Martin Railway Co., Silver Spring Brewing Co., Victoria-Phoenix Brewing Co.

Judging of the Jersey cattle was not completed until Saturday morning and the prize list in this excellent class was as follows:

Bull, 3 years or over—1, B. H. Bull & Sons; 2, H. Bevan; 3, Grimmer Bros.

Bull, 2 years—1, B. H. Bull & Sons; 2, 3, B. H. Bull & Sons.

Senior bull calf—1, A. H. Menzies & Son; 2, Grimmer Bros.; 3, B. H. Bull & Sons.

Junior bull calf—1, R. Ness; 2, A. H. Menzies & Son; 3, Grimmer Bros.

Champion bull, any age—1, B. H. Bull & Sons.

Cow, 3 years and over—1 and 2, B. H. Bull & Sons; 3, H. W. Bevan.

Heifer, 2 years—1, 2 and 3, B. H. Bull & Sons.

Senior heifer, yearling—1, 2 and 3, B. H. Bull & Sons.

Junior heifer, yearling—1 and 2, A. H. Menzies & Son; 3, B. H. Bull & Sons.

Heifer calf, senior—1, B. H. Bull & Sons; 2, A. H. Menzies & Son; 3, B. H. Bull & Sons.

Heifer calf, junior—1, Grimmer Bros.; 2 and 3, A. H. Menzies & Son.

Champion female, any age—B. H. Bull & Sons.

Herd, bull and four females, any age, owned by one exhibitor—1 and 2, B. H. Bull & Sons; 3, Grimmer Bros.

Herd, bull and three females, all under 2 years of age—1, B. H. Bull & Sons; 2, A. H. Menzies & Son; 3, B. H. Bull & Sons.

Herd, three animals, any age or sex, the get of one bull—1 and 2, A. H. Menzies & Son; 3, Grimmer Bros.

Two animals, progeny of one cow—1, Grimmer Bros.; 2, A. H. Menzies & Son; 3, J. Robson.

Hand Embroidered and Hemstitched Lunch Cloths, 36 to 54 inches wide, from \$16.50 to . . . **\$4.00**

Also a complete stock of Irish Linen Table Covers and Napkins at moderate prices.

—Main Floor

New One-Piece  
Dresses for Women  
and Misses

Every new production for the present season is represented in our authentic showing of new one-piece Dresses. We have them with high or Dutch necks and long, set-in sleeves, made of various popular materials, in serviceable colors tastefully trimmed in contrasting shades. Also a collection of pretty Silk Dresses, ranging in price from \$30.00 to . . . **\$10.75**

—First Floor

Carpet Ends, About  
One Hundred to Sell  
at Two Prices 85c and  
\$1.50

At one-fifty you can choose from Wilton, Axminster and Brussels pieces that are worth from \$2.50 to \$4.75 each. All pieces are 27 x 54 inches. At 85 cents—you can choose from about fifty carpet ends that are well worth double this price. A good assortment of colors to choose from. All marked **For a Quick Disposal Tuesday at 85c and \$1.50**

—Second Floor

Wool Delaine and  
Viyella Waists

In a splendid variety of pretty striped designs on colored or white grounds with Peter Pan and French collars and cuffs; some trimmed with pretty colored ties and buttons; others plain. Enticingly priced at from \$4.75 to . . . **\$2.25**

First Floor

A Superb Showing of  
New Fall Suits and Coats

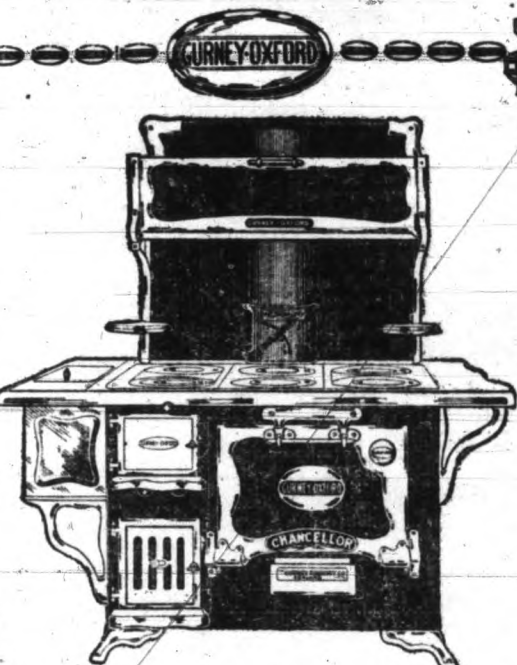

There's a wonderful variety of styles, materials and colors in our showing of New Fall Suits and Coats, and the common opinion is that our garments this season are more beautiful and practical than ever before.

Extraordinary care has been used by our manufacturers in the tailoring, the linings and trimmings of these New Fall Suits and Coats. Every one is as perfect as human skill and ingenuity can make it.

You will find a showing here unsurpassed in the city for elegance and price appropriation.

**New Suits \$45.00, \$35.00, \$30.00, \$27.50, \$25.00, \$17.50**  
**New Coats \$30.00, \$25.00, \$22.50, \$20.00, \$18.75, \$15.00**

—First Floor

## Equal Heat In Every Part of The Gurney-Oxford Oven

Every woman well knows the bad results from constantly opening the oven door to move a cake to another shelf or turn a pan of biscuits. Often the shifting or the cold air striking in proves utterly disastrous to her baking.

The Divided Flue on the Gurney-Oxford range equally distributes the heat to all parts of the oven which is regulated to the exact temperature required by means of the Economizer.

This wonderful time-labor-and-money-saving device controls the heat of the whole range.

It is worked by a small handle which moves around a series of six notches. The housewife soon learns that by moving the handle to No. 1 she has a very hot oven, to No. 3 a moderate oven, and that No. 6 checks the fire so as to burn scarcely any coal while she goes out shopping. On her return she simply moves the handle to the number that gives the required heat and the result is prompt.

Of inestimable value also is the Broiler Attachment and the Special Grate.

But a most delightful feature about the Gurney-Oxford is its constant bright and shining appearance.

It has a smooth polished top that never requires black lead and is thoroughly sanitary.

For years stove experts have been working out woman's problem in the kitchen and the Gurney-Oxford range is the solution.

SCRAP BOOK.  
Tercentenary of London's General  
Water Supply.

To-day marks the tercentenary of one of the most important events in human history—the inauguration of the first general water supply in the city of London. The water faucet and the hydrant of to-day represent humanity's best bulwark against the scourges of fire and plague. The problem of providing cities with a sufficient supply of pure water was one that baffled the best minds for centuries. Sir Hugh Myddleton, the greatest engineer of his time, solved it for London and the world.

As early as the thirteenth century a limited supply of water was brought to London by the Cheapside conduit and a system of leaden pipes. Only a few wealthy people shared in the benefits of this innovation. The populace had to depend on the wells scattered about London; private cisterns, the river and other sources where the water was contaminated by the filth of a city without any adequate system of

sewage disposal. Water carriers went through the streets, and a majority of London's population depended upon them for their supply.

It was in 1609 that Sir Hugh Myddleton undertook the gigantic task of conveying New River water to London from Chadwell and Angell, in Herefordshire. Great natural difficulties and much opposition hindered the work, but the project was carried to completion at an immense expense; and on September 29, 1613, the water was turned on and the system was formally inaugurated. The water was distributed through the streets in pipes made of small elm trees, cut in six feet lengths, drilled, and one end tapered so as to fit into the bore of the other. Four hundred miles of such pipes were laid. Small leaden pipes were used to convey the water into houses. The supply was insufficient, however, and it was not until the "great plague" of 1664, and the "great fire" two years later, resulting in the death of 100,000 people by disease and the destruction of 14,000 houses by fire, that Londoners were fully aroused to the necessity of the extension and improvement of the water supply.

The use of aqueducts to supply cities

with water may be traced back to very remote periods in Persia, Egypt and Judea. The "pool of Solomon," near Bethlehem, were three large reservoirs from which water was conveyed at Jerusalem, six miles distant. An earthen pipe from these pools now supplies the holy city with water. The ancient city of Mexico was supplied with water by the aqueduct of Chapultepec, built by Montezuma. The Incas of Peru had aqueducts for conveying water from the reservoirs in the mountains, hundreds of miles distant, to their cities, and also for the irrigation of their fields.

In Egypt aqueducts were constructed during the reign of Sesostris and in Babylonia under Semiramis. Ancient Rome was supplied by no less than 24 aqueducts. Strabo said that whole rivers flowed through the streets of Rome. It is estimated that 50,000,000 cubic feet of water was supplied daily to Rome.

New York will soon have the most modern and costly water supply system in the world. The American metropolis now consumes 500,000,000 gallons of water daily, or 100 gallons a day each man, woman and child. The new system will bring water from the great Ashokan reservoir, in the Catskills, to the city by means of an aqueduct, 92 miles in length, at a total cost of \$176,000,000. The Croton aqueduct, which gave New York its first modern water supply, was completed in 1842, and at an original cost of \$12,500,000. Millions have since been spent in extensions and improvements, but the Croton river supply can no longer be depended upon to meet the ever growing demand for water.

## BIG SURPRISE TO MANY IN VICTORIA

Local people are surprised at the QUICK results received from simple buckthorn bark, glycerine, etc., as mixed in Adler's-I-Is, the German remedy which became famous by curing appendicitis. Hall & Co., corner Douglas and Yates, state that this simple remedy draws off such a surprising amount of old foul matter from the body that A SINGLE DOSE relieves sour stomach, gas on the stomach and constipation INSTANTLY.

Letters for publication in Daily Times  
must be received at the Times office not  
later than the day before the day of pub-  
lication. When received later they will  
be held over until the following day.

While unobjectionable anonymous com-  
munications will be published, the name  
and address of every writer of such letters  
must be given to the editor.

### ALIENS PREFERRED.

To the Editor:—Perhaps you are not  
aware that on good road work in this  
province 56 per cent. of those employ-  
ed are aliens. That many of the bosses  
and "straw bosses" are aliens. That  
furthermore, Canadian and British  
born voters are constantly discriminated  
against in favor of Scandinavians, Ital-  
ians and Slavs, freshly arrived from  
the United States? Perhaps you are  
aware of it, and attach no importance  
to it, like the papers on the main-  
land, who are as indifferent in the  
matter as the Hon. Minister of Lands  
and works, who remains deaf to any  
complaints made to him by voters who  
have suffered by this discrimination.

These aliens are here as the direct  
result of the policy of the present ad-  
ministration, and after monopolizing  
almost every other form of labor they  
have now taken complete possession of  
the great roads, where short hours and  
good wages are the rule.

I have names of some 16 voters who  
were either discharged to make room  
for aliens on government work, or re-  
fused work while aliens were taken on  
during the past summer.

### WORKINGMAN.

Yale, B. C., Sept. 23, 1913.

### WATER QUESTION.

To the Editor:—The letters of Mr. F.  
A. McDiarmid regarding the "water  
question" afford very interesting read-  
ing to citizens generally. The con-  
clusions arrived at by him appear to  
me both sound and reasonable. In  
effect they are these:

First—The city of Victoria, having  
expended nearly \$1,500,000 in the Sooke  
Lake undertaking, involving an annual  
expenditure of \$75,000, it would be only  
business prudence to complete the un-  
der-taking at a further cost of \$1-  
500,000.

Second—The matter of purchasing  
the Goldstream undertaking can wait  
until Sooke is out of the way.

Third—Both undertakings—Sooke and  
Goldstream—are necessary for the fu-  
ture "Greater Victoria."

To each of these statements I agree.  
I do not, however, agree that it is either  
wise or unwise to review the past  
and endeavor to "extract lessons" that  
may guide us as to the vote on Thurs-  
day. Neither do I think that Mr. Mc-  
Diarmid clears the situation by airily  
brushing aside the responsibility of  
those who obscured the issues raised  
between the rival schemes of Sooke  
and Goldstream when the former  
scheme was accepted.

That the citizens were then grossly  
and shamelessly misled cannot now be  
denied, and it is a reasonable matter  
for consideration as to whether the city  
council are well advised in submitting  
the by-law at this time without better  
assurances or evidence than the pub-  
lished statement of the Finance com-  
mittee. Not a few citizens are saying  
and with reason: The city is being well

supplied with water, why should we  
vote one and one-half millions more for  
either incompetence or mismanagement  
to play with? We have been deceived  
before; we have relied on estimates  
and statements that have been juggled;  
what proof is there that the present  
estimates are accurate? There is \$400-  
000 still on hand; let this amount be  
first expended and the larger amount  
can be submitted at the annual election  
in January, when a new city council  
will become responsible for both esti-  
mates and expenditure.

Look at the disgraceful position the  
city is placed in towards its financial  
dealings. The citizens voted \$1,500,000  
for the Sooke Lake undertaking. It  
was stated openly by its advocates  
that the whole scheme would be com-  
pleted for this amount. With great  
flourish of trumpets the contract for  
\$1,167,000 was placed before the people  
for ratification, leaving a margin of  
\$333,000 for land and contingencies. The  
people voted it, and now they are  
asked to double their previous vote.  
What guarantee is there that when  
this latter amount is expended that  
like Oliver Twist, the city council will  
not ask for "more?"

Yet there is no reasonable doubt  
that having embarked upon the ven-  
ture, the citizens will have to plunge  
again. It is a further "leap in the  
dark," with the simple advantage of  
having once been "boggled and misled"  
we shall be so experienced in the busi-  
ness that the unpleasant sensation the  
second time will not worry us so much.

"In for a penny, in for a pound," is  
an old adage, and with a feeling of  
regret, I intend to vote for the by-law  
on this principle. Yet others are likely  
to say, "Once bit, twice shy."

Just one thing more. If the citizens  
of Victoria had purchased the Gold-  
stream undertaking at \$2,000,000 and re-  
ceived as described in Mr. McDiarmid's  
letter, the cost would be as follows for  
a daily delivery of 13,000,000 gallons:

Interest and sinking fund on	\$2,000,000.....	\$100,000
At 5 per cent.....	52,134	
Less net revenue.....	\$47,866	

For the same daily delivery from  
Sooke Lake the charges upon the (now)  
estimated cost of \$3,000,000 for interest  
and sinking fund is \$150,000, or an  
added annual cost for the same delivery  
of water of \$102,134, besides losing the  
opportunity of controlling the water  
supply to Victoria West and Esquimalt,  
and, in addition thereto, holding in re-  
serve water power of great value when  
the B. C. E. Transway Company's con-  
tract shall cease.

Do you wonder that people are dubi-  
ous about the proposed by-law?

W. MARCHANT.

### MUCKRAKING.

To the Editor:—Speaking of the  
humble but useful muckracker, one of  
your contemporaries admits (speaking  
from experience) that his (rival's)  
"capital" consists of "facts, imagin-  
ation and a keen eye." The facts, imagin-  
ation and a keen eye, even when appeal-  
ing unpleasantly to the senses, are  
usually both profitable and useful,  
though not of the kind you might  
enthusiasm over, and take the unsavory  
one for spin in a motor. So don't in-  
terfere with him or his job unless there  
is something in it better to conceal  
than bring to light.

The Brobdignagian Muckraker of the  
world (London Times) raked more  
moral filth through the law courts in

London in 1888 than the whole press  
of the United Kingdom, although each  
had its own little rake at work for the  
same commission. Half the population  
of the world are muckrakers, more or  
less; but the most useful are those that  
discover power in the muck, that some  
"shining marks" have been in two  
places at the one time.

I myself have a decided taste for  
such useful muckraking. That is when  
there is good reason to suspect the in-  
tegrity of those "shining marks." Let  
all rakers about when they get a haul  
of the kind. Silence is a mistake when  
you rake out the political "shiner,"  
who has been playing the old double  
game of saint and sinner.

GROUCHER.

### "PICKETING."

To the Editor:—Under the above  
heading, "McGregor" has a very witty  
article in the Times. I would not feel  
at liberty to obtrude any further sug-  
gestions than those contained in two  
other sets of men from engaging in  
work which they have a legal and  
natural right to perform. That such a  
monstrous and absurd contention  
should find any intelligent advocates is  
one of the wonders of the age. But  
"McGregor" thinks that he has discov-  
ered other kinds of "picketing" equally  
reprehensible, and insists that the laws  
should be made to bear equally on all  
classes and that the one should not be  
favored above another. If "McGregor's"  
premises are correct, his conclusion is  
unquestionable. Equality is equity,  
and ought to be everywhere enforced.

But let us enquire for a moment if his  
premise that there is a discrimination  
between miners and dentists is correct.  
He informs us that there exists in  
Victoria a certain organization "known  
as the Dental Association, or union." That  
this association recently employed  
detectives to procure evidence  
against one Thompson for "practicing  
the palmar art of extracting teeth  
without being a recognized member of  
their association" and that this is "legal-  
ized picketing in British Columbia."

The conclusive answer to "McGregor's"  
contention that there is any anal-  
ogy between the action of the  
strikers and that of the dentists, is  
found in the fact that the former vio-  
lated the law and the latter did not.  
The conduct of the former, as he very  
justly observes, has been declared to be  
illegal by "no less an authority than  
the privy council of Great Britain," and  
he might have added that following the  
lead of the British privy council the  
courts of the United States have uni-  
formly held such conduct to be un-  
lawful; while "McGregor" himself admits  
that the course pursued by the dentists  
is lawful, or, to quote his own words,  
"is legalized picketing of British Col-  
umbia."

If this is true (and I am not ques-  
tioning the truth of any statement  
"McGregor" makes) then this ought to  
settle the matter. Whatever is law  
ought to be obeyed. If the law is bad,  
it ought to be corrected, but until re-  
pealed it ought to be obeyed. There is  
no safety for the public outside the en-  
forcement of the law.

But let us see what analogy subsists  
between "McGregor's" illustration, and  
the subject matter sought to be illus-  
trated. The law requires that a den-  
tist, before he undertakes to practice  
the very delicate functions of his pro-  
fession, shall possess very satisfactory  
qualifications for his profession, said  
qualifications to be attested by an au-  
thority duly appointed. To attain to  
this qualification the candidate must  
submit to a course of study and is in-  
volved in considerable expense.

Are any such requirements made of  
the miner? Does he have to attend a  
school of mines and take a course in  
mineralogy? Is he required to under-  
go an examination to determine the  
extent of his knowledge of the distinc-  
tions existing between the different  
kinds of coal, or the best means of ex-  
tracting it? Is he required to procure  
a certificate, or diploma, in the absence  
of which it would be unlawful for him  
to undertake to pursue the vocation of  
the miner?

The trouble with the striker is that  
he regards his "card" of membership of  
some "union" as conferring on him  
some privilege not possessed by his  
non-union neighbor. He forgets that  
the right to work is as free as the air  
we breathe, and that no man, nor set  
of men, can monopolize that right.

I shall attempt no defence of the  
Dental Association. The law which re-  
quires its members to exhibit their  
qualification for the duties of their pro-  
fession was made to prevent quacks  
and charlatans from imposing on the  
public; and if the association does no  
more than to employ peaceful agencies  
in the enforcement of the law I cannot  
understand that they are obnoxious to  
criticism.

But, suppose these same dentists  
should form a union, fix rates of  
charges for their services, and upon re-  
fusal of the citizens to pay them  
should undertake by force or intima-  
dation to prevent these citizens from em-  
ploying other dentists, just as compe-  
tent as the union dentists, what then?  
In the supposed case there is the pre-  
cise parallel attempted to be drawn by  
"McGregor." These striking union den-  
tists would become law-breakers, and  
ought to be, and I have no doubt would  
be, sent to jail for their lawlessness.

Adverting to the concluding part of  
"McGregor's" article wherein he at-  
tacks the hospital board for its resolu-  
tion "confining their contracts to Bri-  
tish firms," I have this to say: A pub-  
lic officer, or commission, is a pub-  
lic servant; a trustee charged with the  
distribution of public money for the  
public good. A public officer, board, or  
commission, has no right to discrimi-  
nate in favor of its friends, its kindred,  
or its race, in the distribution of the  
public's funds. The duty of such agent  
or trustee is to procure the best ser-  
vice for the least money. Such board  
is not charged with the duty of dis-  
tributing a charity. Its duties are me-  
tallic, pure and simple. If a board  
having a contract to let receives a bid  
from an Englishman of fifteen thou-  
sand dollars and a bid for the same

service from a Chinaman for fourteen  
thousand dollars, it has a perfect right  
to discriminate in favor of the Eng-  
lishman, provided it makes up the de-  
ficiency of one thousand dollars out of  
its own pocket; otherwise it is guilty  
of a graft. If gentlemen desire to be  
stowed a gratuity on their friends, let  
them use their own money; not  
that of the public's.

I believe that this also is the view  
taken by "McGregor."

A. A. FREEMAN.

### SOOKE LAKE.

To the Editor:—As so few, in spite  
of Alderman Guthbert's invitation to  
discuss Sooke Lake in all its aspects,  
have said much about the matter I  
crave for a little space to put a few  
ideas before the ratepayers.

A by-law authorizing the borrowing  
of another \$1,500,000 is being very care-  
lessly put before the property owners  
for their acceptance. Now is it not  
about time we called a halt? Are we  
going to allow a most unbusinesslike  
set of men to keep putting their hands  
in our pockets, and when they get  
what they ask for pour it into schemes  
that are badly handled, badly engi-  
neered and totally inadequate for what  
they are intended.

Mr. R. P. Elliott has written the  
council on this matter. His letter was  
shelved. Do you remember a similar  
incident when Mr. Langley wrote con-  
demning Smith's Hill reservoir and  
how those in authority reviled him in  
the press. "We have a competent en-  
gineer in Mr. Adams. Langley should  
mind his own business. What did a  
lawyer know about an engineering  
feat anyway? Why didn't he wait and  
see?" Well he did wait and see. He  
waited and saw nearly three times the  
price sunk in a hole that should have  
been watertight in the beginning.

When Sooke was first meted a very  
representative set of practical business  
men were named as a committee to  
consider the question from all sides.  
I remember that Mr. D. R. Ker and  
Mr. Shalkcross were on that commit-  
tee. I remember the committee re-  
ported that Sooke would cost too  
much; that as we should never acquire  
the right to supply Victoria West un-  
less we bought out the Goldstream  
Company, and that if we did not sup-  
ply the water from the Esquimalt Water  
Works, we could not tax them for  
something they never had; that our  
natural supply until we grew to be a  
very large city was Goldstream, and

that as a supplementary we needed the  
larger lake at Sooke.

When Mayor Morley heard these  
opinions unflinchingly expressed he im-  
mediately did what I consider as a  
very ungentlemanly thing. He dis-  
missed them. He told them he would  
have none of their opinions, and, as he  
does so often, rode roughshod over  
everything in the way of Sooke.

The opinions of the committee; the  
opinions of the city solicitor whose ad-  
vice as to Victoria West the ratepay-  
ers wanted; the opinions of the rest  
of the council mattered nothing; he  
had decided on Sooke, and Sooke it  
should be. He had been vacillating  
between Sooke and Goldstream and  
enlarging Elk lake, and he'd only  
waited about two years, but now he  
had made up his mind to acquire  
Sooke.

Now, Mr. Editor, it has struck me  
very forcibly a good many times that  
if Mayor Morley were a woman you  
would all be saying, "Well, what can  
you expect; they are all erratic and  
have the privilege of changing their  
minds." But of all the inconsistent  
creatures that ever wore petticoats,  
our present mayor can beat them. The  
first council he sat in never passed a  
resolution awarding a contract to some  
needy mechanic, but that they recon-  
sidered the question at the next meet-  
ing, and gave it to someone who had  
been a few years longer in the city.  
Little piffing things have stirred the  
council to its depths till the men in it  
have really wondered if they were  
men. Big issues have been crammed  
down the throats of the ratepayers  
without any proper surveillance.

Mayor Morley reminds me of a squir-  
rel who has just discovered he has a  
tail, and he races around a very big  
tree to see if it is in the other side  
also. Then when he finds it there,  
back he goes again, but always around  
the tree. He never seems to realize  
that if he'd climb the tree the tail  
would follow him. So no council can  
follow him, no body of men can with  
the very best of intentions work with  
him because he makes the tail the  
issue.

But I digress. About two years ago  
a by-law passed which was to pay for  
Sooke. We were told at the time that  
we should not need the money for a  
good many years. We were told it  
would pay for acquiring the watershed  
and build the reservoir, clear the  
edges and bring the water into the  
city. This was for the immense sum  
of \$1,500,000. Another considerable sum  
passed the ratepayers for repiping the

city. Now all this sum has gone and  
what has become of it? Not even all  
the watershed has been bought up yet.  
Isn't it just about time we voted  
against spending any more until we  
have a more businesslike body of men.  
A good many of the present council  
intend themselves voting this by-law  
down. It is proving a second Smith's  
Hill. Water taken from the little lake  
at Sooke can never be used for any  
purpose. It is much more muddy than  
Elk lake ever was. It is more than  
lake-warm, and no one ever thought  
of drinking it. The big lake if pumped  
into Goldstream reservoirs would be  
quite all right, but I do not think we  
should need it for a good five years.  
Meanwhile let us get our city on a  
sound financial basis by turning down  
so flimsy a scheme as the present  
one.

GEORGINA S. KENT.

**NA-DRU-CO  
RUBY ROSE  
COLD CREAM**

Imparts a soft and velvety charm

## Warding Off "Old Age"

A London Physician says:—

When a distinguished scientist like Dr. Newsholme, of the  
Local Government Board, warns us that we are ageing prema-  
turely as the result of the strain modern life throws on our  
hearts and arteries, it is worth thinking what can be done to  
stop this health wastage.

Dr. H. Strauss, of Vienna, in a recent number of the  
"British Medical Journal," makes the timely suggestion that  
much can be done to retard this premature wear and tear by  
paying a little ordinary attention to the diet.

The man whose heart or blood vessels begin to show signs  
of not being as young as they used to be, should, for example,  
be very chary with his meaty foods. Two and a half to three  
and a half ounces of meat a day Dr. Strauss considers quite  
sufficient.

More important than what one eats, however, is what one  
drinks. Alcoholic stimulants of all kinds tend to burden the  
heart and blood vessels by making them work overtime, which  
of course increases the wear and tear. But it isn't only  
alcoholic stimulants Dr. Strauss inveighs against. Caffeine  
(the powerful drug contained in tea and coffee,) this dis-  
tinguished scientist point out, is also a powerful heart irritant.  
Every time one takes a cup of these beverages the caffeine in it  
encourages one's heart to do extra work which is practically  
always quite uncalled for, and therefore is an utter waste both  
of energy and heart muscle.

In these days when the strain of modern competition and  
high-speed mental work keeps one's heart constantly working  
at high-pressure (thereby tending to produce premature wear-  
ing out) anything which can possibly add to the work thrown  
on the heart ought to be strenuously avoided. Caffeine, the  
powerful heart irritant contained both in tea and coffee, is  
one of these substances.

It is to meet the growing demand for a caffeine-free bever-  
age, delicious and as appetizing as tea or coffee, that Postum  
was invented. Made from the finest wheat.

# POSTUM

has a pleasant aromatic odor and a delicious flavor, and  
best of all, is absolutely free from caffeine or other  
poisonous drugs.

Postum comes in two forms:

Regular Postum—must be well boiled.

Instant Postum is a soluble powder. A teaspoonful dissolves quickly in a cup of hot  
water and, with the addition of cream and sugar, makes a delicious beverage instantly.

"There's a Reason"

Made by Canadian Postum Cereal Co., Ltd., Windsor, Ont.

# SOOKE WATER BY-LAW

## FINANCIAL STATEMENT

The original By-law for the construction of the Sooke Lake water scheme was for \$1,500,000, though it was expected at the time that the eventual cost would be \$2,000,000; in this two millions the amount estimated for land was \$200,000. Cost of land to date is as follows:

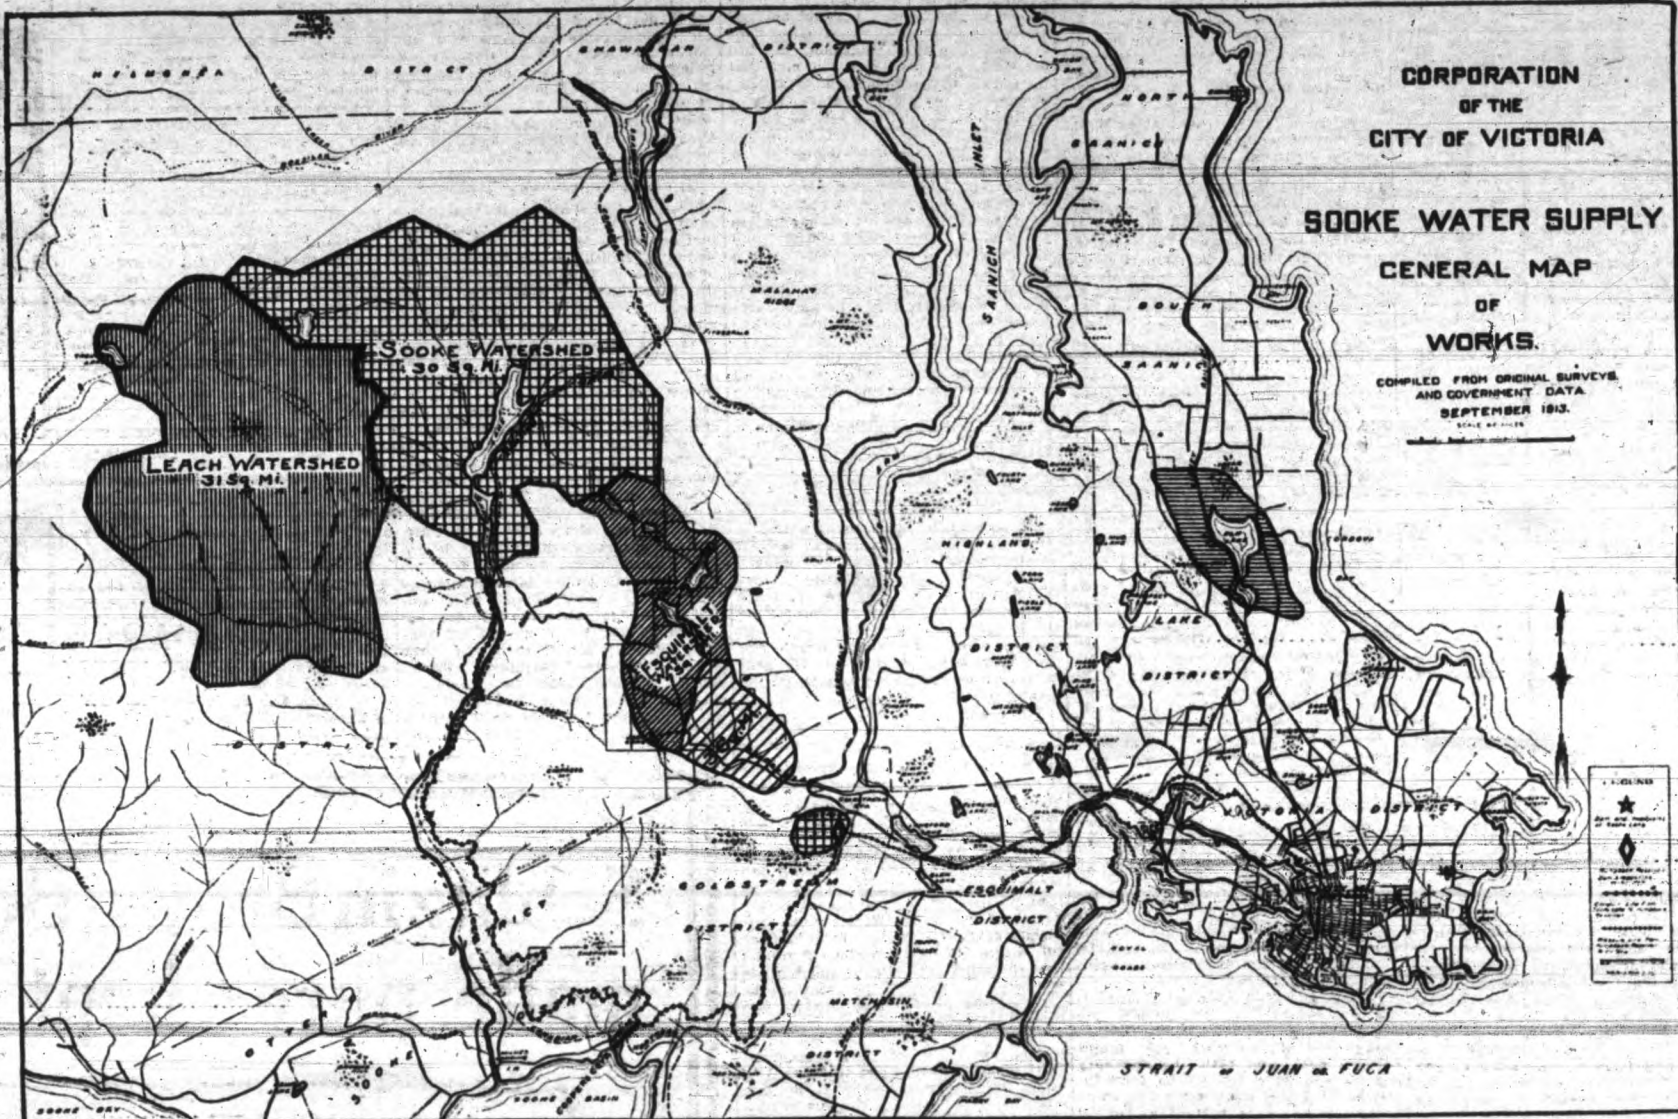

Land at Sooke Lake	\$264,512.02
Right-of-way	27,870.07
Humpback Reservoir site	52,777.65
Arbitration and legal expenses	8,766.10
	\$353,925.84

To this amount has to be added the price of the watershed to be acquired from the E. & N. Ry. Co. and appertaining to Sooke Lake proper \$304,089.50, and \$75,000 for right of way not yet settled for, making a total for land of \$738,116.35, or \$538,116.35 more than the original estimate.

The first half-million dollars of the original loan was sold at 96, the remaining million only realized 91, and no better price can be expected for the new loan. This would make an amount of \$125,000 chargeable to the increased cost of money. This added to \$538,116.35 will account for \$663,116.35, or 66% of the difference between the original estimated cost and the probable final cost of the completed work.

The annual cost of the first loan is \$74,825.00, and that of the new one \$78,270. The difference is caused by the increase of interest from 4% to 4½% on one million dollars of the first loan, and the whole of the new one, also a slight increase in the annual payment to the sinking fund, owing to the term of the new loan being fixed at 48 years so as to make due date of both the same. These payments cease on the first February, 1962, and the works which are the property of the ratepayers will be paid for.

Based on the consumption for the last four months, the annual charge for water purchased from the Esquimalt Water Works Co., will be approximately \$80,000. This amount will increase yearly, and what it will be by 1962 it is impossible to forecast. The capacity of the present Sooke Lake installation is 16,000,000 gallons per diem at an annual cost of \$153,095, or 2.62c per thousand gallons when the whole quantity is used. To buy 16,000,000 gallons daily from the Esquimalt Water Works Co., if it could be supplied, would cost six cents per thousand gallons, or \$350,400 per year. Under the Sooke Lake scheme the cost of water per thousand gallons will decrease as the consumption increases until the minimum of 2.62 cents is reached. Under the present arrangement of buying water by the gallon from the Esquimalt Water Works Co. the cost is fixed by Statute at 6 cents per thousand gallons, no matter what the consumption.

## LEGAL POSITION

The Corporation, under the authority of By-law No. 814, which received the assent of the electors on January 12, 1911, and was finally passed by the Council on January 16, 1911, obtained power to borrow \$1,500,000 for acquiring and constructing the Sooke Lake Water System. A contract was made with the Westholme Lumber Company, Limited, to do the necessary construction work sufficient for the delivery of sixteen million gallons of water daily at the price of \$1,169,170. This contract was submitted to and approved by the electors.

A term of the contract provides that if the contractor abandons the work, or if in the opinion of the Water Commissioner there is unnecessary or unreasonable delay the Water Commissioner is entitled to take over the work. This he has done under the power contained in the contract above referred to, and he is now engaged in completing the work charging the expense to the contractor. The Water Commissioner is entitled under the contract in case the cost exceeds the contract price, to collect the balance from the contractor. If on the other hand it is less, the contractor is entitled to the difference. The performance of the contract is guaranteed by bond of the United States Fidelity and Guaranty Company in the amount of the contract price.

The contracting company commenced a suit in the Supreme Court on April 11, 1913, against the City and various officers claiming to set aside the contract and for damages. This action has not yet come on for trial.

After investigation of the facts the City Solicitor is of opinion that the Water Commissioner was legally justified in taking over the work and he thinks the City has a good defence to the action.

Copy of the contract and of the pleadings in the action lie on the counter of the City Clerk's Office, where they may be inspected by any ratepayer.

## THE FOLLOWING IS A BRIEF STATEMENT OF THE STATUS OF THE ENGINEERING FEATURES OF THE SOOKE WATER SUPPLY

In April of this year the Westholme Lumber Company (which Company under their Contract should have completed 65% of the work) abandoned their contract, having finished only 38½%. The Corporation of the City of Victoria, acting through their Water Commissioner, then took possession, and have since been carrying out the work by day labor.

Tenders for the construction of the concrete flowline and the pressure pipeline were called for, but these contracts have not yet been awarded, pending the submission of this By-law.

Work on that portion of the contract which we are undertaking by day labor is progressing satisfactorily. Unfortunately there was a delay in commencing of about three months, owing to the difficulty of procuring from the Receiver of the Westholme Lumber Co. the necessary plant and equipment, the Court having decided that the City were not entitled to take possession of the plant without compensation.

The work of clearing up to the new water level at Sooke Lake is practically finished. The construction of the dam at the lower end of the Lake is also under way.

On the flowline 27 miles of trackage has to be constructed for the purpose of transporting the concrete pipe. This work is under way, and a supply of rails has arrived at Cooper's Cove and are being delivered on the pipeline.

At Humpback Reservoir the excavation for the dam is finished and concreting is now in progress. The specifications provided that the bottom level of the Reservoir site, about 10 acres, should be covered with a layer of gravel and this material is being procured in the immediate vicinity. The work is progressing very satisfactorily.

There has been a great deal of discussion as to the capacity of the concrete pipe to deliver a sufficient amount of water. It is very difficult to predict the growth of cities, especially in the West, but our Consulting Engineer when reporting upon this matter in 1910 provided for a delivery of 16 million gallons, which under our present rate of consumption, which is about 80 gallons per head, would be sufficient for a population of about 200,000.

The Reservoir at Humpback will have a capacity of 136,000,000 gallons, which will be held in reserve in case any accident occurs to the flowline pipe, but the water will be delivered directly from Sooke Lake to the City through a by-pass pipe.

The quality of the water at Sooke Lake has been questioned. Frequent analysis have been made, and only recently Dr. Hall, our Medical Health Officer, in a report after giving details of the result of the examination stated:

"In conclusion, I would say after bacteriological and chemical examination, the water in the big lake at Sooke is excellent, the middle lake slightly inferior to it, and the third or lower lake slightly inferior to the middle. In my opinion, if the citizens of Victoria receive such water as is contained in any of these lakes at the present time, they will have no reason for complaint."

It has also been suggested by certain parties that a considerable amount of power could be procured from Sooke Lake for the use of the City. Our Consulting Engineer, however, has stated that the maximum amount of horse power that could be developed is 3500, and the cost of developing this amount is such that it would not be a profitable investment.

The cost of delivering 16 million gallons, which is the maximum capacity of the concrete flowline pipe, including all charges will be about 2¼ cents per 1000 gallons.

The raising of the dam at Sooke Lake as outlined in Mr. Wynn Meredith's report of 1911 shows that there will be available 100 cubic feet per second, equal to nearly 54 million gallons of water per 24 hours. When this amount is being delivered the approximate cost per 1000 gallons will be 1 1/3 cents.

The \$1,500,000 which is the estimated amount now required to complete this undertaking is made up as follows:

Amount to complete present contract	\$1,170,000
Engineering, and contingencies	100,000
Right-of-way, land damages, etc.	500,000
Financial and legal expenses	130,000
	\$1,900,000

Cash on hand 400,000

Total amount required \$1,500,000

Mr. Rust, Water Commissioner, states that the money so far expended has been well spent, and there has been no waste of the public funds, and the citizens have received full value for every dollar expended.

## FINANCE COMMITTEE COMMENTS

In connection with the foregoing reports, your Finance Committee begs to call the attention of the ratepayers to the following points:

1. Unless the City completes the work, it will be in the position of having to pay interest and sinking fund in respect of a loan of \$1,500,000 for fifty years and having nothing of any practical benefit or use to show for it.
2. In answer to the argument that it would be wise to wait until financial conditions better and then to proceed with the work there would be great financial loss by reason of deterioration of the unfinished works now under construction; the litigation would be seriously affected by the Water Commissioner not having the funds to complete the work as called for under the contract and during this suggested cessation of work the interest and sinking fund payments would have to be made while the time when the works would become revenue-producing would be postponed.

3. Tendency in all Canadian cities at the present time is towards the Municipal ownership of the water works.

4. The vote will be taken at the Police Court Room, City Hall, on Thursday, October 2, 1913, between the hours of 9 a.m. and 7 p.m., and all ratepayers are earnestly requested to vote; the question is of the utmost importance to the citizens of Victoria and it is the duty of every qualified elector to vote on this most important question.

W. A. GLEASON  
R. J. PORTER  
GEO. McCANDLESS  
ANGUS B. McNEILL, Finance Committee  
A. J. MORLEY, Mayor.

## TO-DAY IN CANADIAN HISTORY

Montreal was the scene twenty-eight years ago of a riot that assumed serious proportions. The smallpox vaccination, particularly that of compulsory vaccination, aroused the anger of thousands of the French citizens of the city. Wild and exaggerated stories of the dangers and perils of vaccination were circulated and gained credence. On September 28, 1885, the spirit of antagonism toward the authorities responsible for the vaccination measure reached the stage of lawless action, and a mob was formed and marched on the city hall. The rioters also threatened to burn the plants of the English newspapers, which had advocated compulsory vaccination as a means of preventing the spread of smallpox. The police were equal to the situation, and the mob was dispersed, and many of the rioters were injured.

Loring W. Bailey, geologist, a member of the faculty of the University of New Brunswick, 1839; and of C. R. Gray, president of the Great Northern railway, 1867. It is the anniversary of the death of George William Featherstonhaugh, who was one of the British commissioners to determine the boundary between western Canada and the United States, 1866.

Upon this date, ninety-nine years ago, Sir James Yeo, a British officer in command of the Lake navy during the war of 1812, wrote to the secretary of the admiralty, enclosing correspondence which had passed between Sir George Prevost and Captain Downie, and showed apparently that the former had been much to blame for the failure of the attempt made, a few days earlier, on Plattsburg. This was the headquarters, on Lake Champlain, of the American "Grand Army of the North"; and, after receiving a considerable reinforcement of British regular troops, Sir George Prevost had determined to invade New York State, beginning with an attack on Plattsburg by land and water. Prevost himself took command of the land forces, while Captain Downie was in charge of a fleet of small vessels, which had to encounter a much more powerful American squadron. Unfortunately Prevost did not make his assault at the time agreed upon, and, unsupported, Downie met with grievous defeat. In the desperate fight the captain was killed, and several of the British boats had to haul down their colors. On learning of the disaster, Prevost, much to the rage of some of his officers, drew off his troops without striking a blow.

GERMAN WOMAN wants work day or week. Box 5424, Times.

## ENGINEER ADAMS DIES AFTER BRIEF ILLNESS

### Many Waterworks Improvements Were Carried Out Under Him

Information was received at the city hall this morning of the death of Arthur L. Adams, the consulting engineer whose reports on the waterworks system of Victoria in 1907, 1908 and 1909 played a large part in the work of the councils of those years. The news was contained in a letter from Augustus Kempkey, a civil engineer in the Balboa block at San Francisco, where Mr. Adams had his offices. He conveyed the information to City Comptroller Raymur, former water commissioner, who was in office during the reports of Mr. Adams on the city water supply. Mr. Adams, he says, had been failing for some time, but his death came as a great shock to his friends. He passed away on September 17.

Mr. Adams first made his official connection with the council business in 1905, when the agitation to purchase the Esquimalt undertakings became a matter of practical politics. In 1907 he made his celebrated report upon the whole waterworks undertakings of the city, arriving here in October. The report embraced Goldstream, Millstream, Elk Lake and Sooke, and was presented to the council on December 23 of that year. He recommended the improvement of the Elk Lake, the building of the reservoir at Smith's Hill, a high level tank, and the putting in order of the distributing system. In the January following a by-law for \$519,000 was adopted, and a referendum in favor of utilizing the Sooke water supply as the ultimate source of supply of Victoria was passed. This was the beginning of the movement which led to the present works now under construction.

The land at the reservoir site was broken on April 27, 1908, and work continued during that year. A great deal of water pipe was laid, and the concrete tank at the ridge between Rockland avenue and St. Charles street was constructed, under the direction of Mr. Kempkey, who now informs Mr. Raymur of the death of his chief.

Mr. Kempkey was subsequently appointed to take charge of the work at the reservoir, which was finished in June, 1909. Immediately after water was turned in the big tank began to leak and repairs had to be executed. It continued to be a source of friction between the aldermen, officials and the citizens till the spring of last year, when the reservoir was reconstructed and a good job made of it. Naturally, Mr. Adams was a great deal of criticism, and Mr. Adams considered he did not get justice from the council.

When Mr. Raymur was in San Francisco in January, 1912, he visited Mr. Adams at his office, that being the last occasion upon which he saw him. Mr. Adams had a large consulting practice in California.

## DR. M'PHILLIPS IS TO ARGUE ON RATES

### He is Appointed to Represent Province Before Railway Commission in Important Case.

Representing British Columbia at the request of the province, freight rates by the railway commission, L. G. McPhillips, K. C., of Vancouver, has been appointed to take the place of W. A. Macdonald, K. C., recently raised to the bench. The announcement was made by Attorney-General Bowser on Saturday to a deputation from the Vancouver Board of Trade which waited upon him here.

Mr. McPhillips will take his place with counsel for other western interests, M. K. Cowan, K. C., will represent Alberta and Saskatchewan, while Isaac Pitblado, K. C., will represent the city of Winnipeg. The inquiry will be resumed at Ottawa at an early date, having been postponed to allow this province to appoint a successor to Mr. Macdonald.

The deputation from the Board of Trade on Saturday consisted of A. H. McCandless, W. H. Malkin, H. A. Stone and W. A. Blair, the secretary.

Purchasing Agent Here—R. H. Hunter, purchasing agent for the department of public works, returned to town last evening, and is now staying at the Empress hotel. It is understood that Mr. Hunter is here in connection with the purchase of the dry-dock.

### TOO LATE TO CLASSIFY

COMFORTABLE, furnished room, central, 1605 Robecca street, off Pandora avenue. Terms moderate.

LOST—Saturday afternoon, Fair Ground, valuable milk fur. Phone 1791 any information regarding same. Reward, 4018L.

NICE, FURNISHED APARTMENT, 2 rooms, kitchen and private bathroom; furniture, very reasonable, all new; exceptionally low rent. Phone 4018L.

STOVES.

W. A. FOXGORD, jobbing plumber and boiler; large stock of heaters and stoves, cheap. 1608 Douglas. Phone 1800L.

DIED.

O'CONNELL—On September 27, at 736 Johnson street, John Joseph O'Connell, age 13 months and 10 days.

The funeral will take place from the Victoria Undertaking Parlor on Tuesday, at 2 p. m., to the St. Andrew's cathedral, R. C. church, on View St.

HASTINGS—On the 26th instant, Marion Constance, aged 3 weeks, daughter of Mr. and Mrs. W. F. Hastings.

Funeral from Sand & Fulton Parlor, Quadra street, Monday, Sept. 29.

CARD OF THANKS.

Mr. and Mrs. Cherry and family wish to thank their many friends for the beautiful floral offerings and kind words of sympathy in their recent and bereavement in the loss of their dear boy, also to express our thanks to the Victoria police for the prompt way they responded to our call.

## AIKMAN TO DEFEND BANKERS' TRUST MEN

### Split Occurs Between Frank Higgins and Cook, Hearn and O'Connor

Announcement of a split between the accused, F. C. Cook, J. O. Hearn and R. N. O'Connor, and their counsel, Frank Higgins, caused a postponement of the Bankers' Trust cases at the opening of the assizes this morning until a week from to-day, when the case will be called peremptorily. J. A. Aikman and George E. Powell have been retained by the accused to represent them, Mr. Aikman making the application this morning for an adjournment. He stated that the trouble between Mr. Higgins and his clients had arisen only Saturday, and that he would need a week to go through his 500-page brief and the 50 odd exhibits before he would be prepared to do justice to his clients.

H. B. Robertson, the Crown prosecutor, asked that the adjournment be made only until Thursday, as the other cases would all be through by then and he was eager to get to work on the big case. Mr. Justice Gregory thought it would be better to fix a peremptory date than to have to make a second adjournment, as there were a number of out-of-town witnesses. Accordingly Mr. Robertson consented to Monday being fixed as the day to go on.

Mr. Justice Gregory stated that he had not had time to go through all the indictments, and only one case was presented to the grand jury this morning, the charge of false pretences against Sam Hirsch. While the grand jury was devoting its attention to this case his lordship promised to confer with the Crown prosecutor about the other cases so that no time would be lost.

Two cases were struck from the list this morning, election for speedy trial having been made by Quong, charged with the theft of a gold ring, and Thomas Pearson, accused of indecent assault. The cases to go on before the Bankers' Trust case are reached are those charges against Alfred Deakin and Donald Cameron, a charge of attempted murder against William J. Johnson, and the bribery charges against H. P. Winsby and Fred Rand. A Hindu charged with an offence of degenerate nature is also on the list.

## EXPECT TO START IN TWO WEEKS' TIME

### Report on Continuation Classes Goes First to Department for Approval

In order that there may be no clash of authority between the school board and the department of education with regard to the curriculum of the proposed night schools, the committee of the school board which was appointed at the August meeting to draft the provisional scheme along the lines of Inspector Paul's report, has already submitted the report to officials of the department.

The report should be back in the hands of the committee for submission to the board by the special meeting to-morrow, and it is hoped that the classes will be started by the middle of next month. The provisional date fixed in the spring was October 2, so that an attempt will be made to respect that undertaking.

While Inspector Paul would not anticipate what the report contained, he admitted this morning that it was based on the general lines of his suggestions to the board seven weeks ago. Thus it will advise the teachings of the Victoria Undertaking parlor, a scientific and similar subjects which are the base of all education along technical lines, leaving vocational education to the future technical school which is to be operated in the Normal school building.

It is improbable that any attempt will be made to interfere with commercial courses, the board recognizing that already private effort provides all the facilities which are at present required, and that it is unnecessary to make provision of this character in the city. There is a very real desire for scientific and higher training, however, which hitherto has been impossible to secure in this locality.

A Chinaman named Mar Bach Hom, who died at the Chinese hospital at the age of 18 years, will be buried on Wednesday afternoon. He was a cook by occupation, and lived at 636 Herald street, and had been one year in Canada.

Distributed Prizes.—The weekly whist drive in connection with the Ivy Leaf Social Club was held at the Alexandra Club on Thursday evening last, sixteen tables were occupied and after a very enjoyable evening Miss Lancaster presented the prizes to the following ladies and gentlemen: First lady, Mrs. Jacklin; second lady, Mrs. Greener; ladies' consolation, Mrs. N. Higgins; first gentleman, T. Bell; second gentleman, George I. Warren; gentlemen's consolation, R. Day. F. N. Stafford was master of ceremonies.

DESTRUCTIVE FIRE.

Butte, Mont., Sept. 28.—Fire that started in the store of the Clinton Mercantile Company destroyed the principal block of Whitehall, forty miles east of Butte, this morning, causing a loss estimated at \$40,000. No lives were lost.

## TO HOLD CONFERENCE ON NORTHWEST SEWER

### Representatives of Municipalities Will Be Called Together on Thursday

Now that the exhibition is over it is the intention to avoid any further delay over the Northwest sewer. It was the desire to have held meetings of the special committee with representatives of the councils of Esquimalt and Saanich at an earlier date than has been found possible, but there will be no further delay, and a conference has been called at the city hall for Thursday evening, at which representatives of the various bodies will attend.

While the opinion of Esquimalt is fairly well known in view of the recent debate the opinion of Saanich has never yet taken shape at any rate on the proposals as outlined in the report of R. H. Thompson, C. E.

That the scheme would be more thorough than had been projected in 1911 was a foregone conclusion, but the present drainage area mentioned in Mr. Thompson's report covers a very large acreage as he proposes to drain 439 acres by gravity and 126 by pumping. Of that first amount he suggests the desirability of using a combined system as being the cheaper plan, but as the council is already running storm water into the Gorge it is doubtful whether they will be prepared to advise the expenditure of a sum of money in order to care for surface water as well as sewage.

The objection of the provincial department of public health to the discharge of crude sewage into Victoria Arm cannot be sustained in a case of storm water only, and this forms a subject which will require the attention of the representatives of that conference.

The scheme proposes to treat 983 acres in Esquimalt, and it is expected the subject will have the attention of the council this evening as by then the formal invitation to the conference will have been received. In addition to the actual acreage and system of dealing with that area which has to be considered there is the principle of forming a joint sewerage commission to administer the funds on similar lines to the Burrard Peninsula sewerage commission constituted under a special act of the legislature last session.

## OBITUARY RECORD

News has just been received of the death of Mrs. Martha M. A. Meyer, in Oakland, California, on September 28. The late Mrs. Meyer was born at Cowichan in 1830, and was a daughter of Capt. Charles H. F. Blake, of 415 Bay street, this city, one of the most respected and highly esteemed old-timers of Victoria, to whom general sympathy is being extended in the bereavement by the untimely death of his daughter.

Miss Emma M. S. Griffiths died on Saturday at the residence of her parents, Saanich road, at the age of 32 years. Miss Griffiths has been employed for the last six years at the Oak Bay municipal office, and was very popular with her associates and others who knew her. She is survived by her mother, one sister and a brother. The funeral will take place on Wednesday at 2:30 p. m. from the Sands & Fulton parlors to Ross Bay cemetery. Rev. Mr. Andrews officiating.

The funeral of the late W. J. Pendray takes place to-morrow at 2:30 from the family residence, 309 Belleville street, to the Metropolitan church, where services will be held. The employees are to meet at 2 p. m. at factory grounds to

## ADVOCATE OF PEACE ADDRESSED CHURCHES

Dr. W. Evans Darby Spoke Four Times Yesterday on International Peace

Dr. W. Evans Darby, secretary of the Peace Society, who arrived in the city last week from London, England, spoke at public gatherings four times yesterday. At 11 a.m. he addressed the congregation of the First Baptist church at the Dominion theatre, on the text: "Overcome evil with good," dealing with the subject of international unity under the subheads: (1) The Conflict for Peace, and (2) The Conquest of Peace. The conclusive deduction made by the speaker was that despite the devious ways in which it was brought about and the time wasted in its accomplishment, good finally always overcame evil.

At St. Andrew's Presbyterian church last evening Dr. Darby addressed a large audience, referring in the early part of his talk to the peace movement as a world issue. The first peace society, he said, dated as far back as the days of Waterloo, prior to which time it seemed that the world accepted war as inevitable and necessary, although evil. He also told of the recent peace congress at The Hague, which he had just left about three weeks ago after taking part in the presentation of the bust of King Edward VII. at the Carnegie Palace of Peace, and the astonishing interest which had been evinced in the occasion by influential people from all over the world. In his sermon Dr. Darby made a plea for international and social peace, basing his entreaty on St. Paul's injunction to the Philippians: "Let this mind be in you which was also in Christ Jesus." There, he said, no hope for international peace apart from the inclination of the individual, and only through an earnest desire on the part of each person could the great end be consummated.

At 3 o'clock in the afternoon the peace advocate addressed about 60 members of the Metropolitan Methodist Brotherhood on the brotherhood movement to-day in England, and what it stood for. Incidentally he drew in the subject of international peace, and pointed out in what ways the young men could act as disciples of the great messengers. Dr. Hallion was in the chair, and Dr. Scott, pastor of the church, was also present.

At 4 o'clock Dr. Darby addressed the first of the season's Y. M. C. A. Sunday afternoon gatherings, outlining in a general way how peace might be brought about between the nations. At the present time, he said, several of the nations regarded their rulers as their own private deities, whose mandates, regardless of their justice, were held as superior to the wish of the people. Armaments, the speaker pointed out, tended rather to encourage the spirit of war than to dissipate it. One of the errors of the church to-day, as in ages gone by, was that it stood for war. In this connection he cited the remarks of two English archbishops: one had set aside the teachings of Christ by saying that the church at the present time could not advance if it went according to the Sermon on the Mount. If the Sermon on the Mount clashed with the interest of the country, said that archbishop, then it would have to be set aside; the remarks of the other archbishop were in line with this, and argued the preservation of country rather than of a great universal doctrine which would make for harmony and good will.

Dr. Darby, who during his stay in the city is a guest at the Dominion hotel, will speak this evening at the First Congregational church at a mass meeting to be presided over by Rev. Robt. Connell.

## CORNER-STONE LAID AT ESQUIMALT SCHOOL

Hon. Dr. Young Performs Ceremony in Presence of Many

Largely reminiscent of the early days of Esquimalt, and of the great educational progress of this province was the speech of Hon. Dr. Young at the laying on Saturday afternoon of the foundation stone of the extension of Lamson street school, which embraces the complete remodelling of the present building.

The gathering was well attended, among those present being the trustees of the district, Leonard Tait, chairman of the board, presiding; Councillors Anderson and Mesher; Alderman Porter; Mr. W. H. H. Jones, architect; Mr. T. Keyworth, Mrs. Young, Major A. B. Snow, H. Gale, principal of the school; W. H. H. Jones, architect; Mr. T. Keyworth, Mrs. Young, Major A. B. Snow, H. Gale, principal of the school; W. H. H. Jones, architect; Mr. T. Keyworth, Mrs. Young, Major A. B. Snow, H. Gale, principal of the school.

In the course of his address Hon. Dr. Young alluded to the number of similar functions at which he had presided recently and observed that they showed the educational progress of British Columbia more eloquently than anything else. "I suppose," he said, "the growth in the Lamson street school is very much an indication of what has been the growth in the educational system of the province. I had occasion to look up your records, and I find that in 1885 the first school was established in this district. In 1870 the school district was organized, and in 1872, just 40 years ago, the first report was published, that report showing an enrollment of 42 pupils. The total expended for the district was \$1,237, but at first the growth of the district was very gradual, and was only accelerated in the last four or five years. Since 1900, however, the enrollment has more than doubled, and the teaching staff has been increased to an enrollment of 430 in the last report."

The minister prophesied that the development would compel the board to build larger schools, and in that regard their experience was in keeping with that of other parts of the province. He did not think any department of the government gave a surer index of the development of the province than the department of education. In 1872 the department spent on education \$40,000, a similar sum to that contributed now towards this school, while the government contributed \$2,350,000 towards schools this year.

There was in addition the great amount expended by the people from direct taxation, which must amount to nearly 4,000,000, so that the sum of \$6,000,000 was being expended annually on education in a province of some 450,000 population. There had never been any question of curtailing the expenditure, however, because they recognized that the expenditure in education was the best heritage for their children. The speaker next praised the various trustee boards and other organizations for their interest in education, and continued that the trustees must look far ahead to prepare for developments. He referred to an experience in the Okanagan to show that the boards were often ahead of requirements in the immediate occasion, but their foresight was inevitably ultimately justified.

Mr. Tait, in introducing Chairman George Jay, of the Victoria school board, referred to the regrettable death of Roy Cherry, a pupil of the school, and said the absence of the cadet band was due to this cause and the desire to avoid a demonstration.

Truancy. Mr. Jay observed that while a great deal had been said about a greater attendance had been said about

the consolidation of the various school districts should that amalgamation take place. Pending that annexation the city school board was always willing to aid the other municipal school boards. He would suggest to them one way in which they could co-operate—truancy. There was no doubt that a number of children escaped school, the city trustee officer having no jurisdiction outside the city limits, and if some arrangement could be made to keep check of these cases it would be of benefit to all. He proposed to call a meeting of the boards shortly to discuss the whole question.

Mrs. Jenkins, a Victoria school trustee; R. H. Pooley, M. P. P.; C. H. Lugin and Munro Miller, chairman of the Saanich board, also spoke. Dr. Young then distributed the following awards: Gold medal presented by Mrs. Birch to the most successful pupil in the recent entrance examinations in British and Canadian history; William Pauline, and also the first prize was presented to Hugh Mackay, as well as the rolls of honor to other pupils, including Sidney Saunders, who was described as pre-eminent in punctuality and regularity. Eva Jacobson received a prize for deportment. The reading prize, presented by the chairman of the board, was given to Katie M. Parkinson.

The proceedings closed with the benediction from Rev. T. Keyworth. The stone bore a suitable inscription, but owing to misdirections to Mortimer's stonemason, where the block of native granite was prepared, there will have to be some revision of the lettering.

## SECRETARY APPOINTED.

Fred Cook, London Times Correspondent at Ottawa, Named for Better Terms Commission.

Fred Cook, one of the most widely-known newspapermen of Canada, has been appointed secretary of the Better Terms Commission. Mr. Cook has been a member of the press gallery at Ottawa for many years and has been president of that body on two or three occasions. He is correspondent for the London Times and a number of other papers and in addition is well known for his special articles in British papers on Canadian political subjects. Mr. Cook is held in high respect by the fellow members of his profession, by the members of parliament and by the citizens of Ottawa, of which city he was once elected mayor.

## IF MEALS HIT BACK AND STOMACH SOURS

"Pape's Diapepsin" ends stomach misery, indigestion in 5 minutes.

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of distress, heartburn, fullness, nausea, bad taste in mouth and stomach headache, you can get blessed relief in five minutes. Ask your pharmacist to show you the formula, plainly printed on these fifty-cent cases of Pape's Diapepsin, then you will understand why dyspeptic troubles of all kinds must go, and why they relieve sour, out-of-order stomachs or indigestion in five minutes. "Pape's Diapepsin" is harmless; tastes like candy, though each dose will digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but, what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many "Pape's Diapepsin" cranks, as some people will call them, but you will be enthusiastic about this splendid stomach preparation, too, if you ever take it for indigestion, gases, heartburn, sourness, dyspepsia, or any stomach misery. Get some now, this minute, and rid yourself of stomach trouble and indigestion in five minutes.
